

BRIEF REVIEW OF THE BATTLE NEWS

The deadlock which developed on the Picardy and Flanders battle fronts, following the severe defeat administered by the Anglo-French forces to the Germans on Monday along the Franco-Belgian frontier was unbroken today. There were indications, however, that a renewal of infantry operations would be forthcoming soon, for the artillery activity was increasing in both zones of battle.

The Germans concentrated their heaviest fire in the sector of Villers-Bretonneux, nine miles east of Amiens, where American troops had a strong attack on Tuesday, and around Meuse, on the Flanders front.

Morris lies between six and seven miles east of Hazebrouck, one of the chief local objectives of the Germans in the north. For a long while that sector of the northern front has been comparatively quiet while the Germans centered their assaults immediately southward of Ypres in a desperate effort to compel the British to give up a row of hills in the Tournai-Lille district and eventually bring about the evacuation of Ypres.

In spite of the fact that the German offensive has been temporarily paralyzed by the stiffened resistance of the Allied forces and notwithstanding the terrific losses they have suffered the Germans are expected to continue their efforts to break through.

The Verdun offensive began on February 21, 1916, and it was not until far in the following summer that they gave up their efforts to capture the city and press back the French lines from the Meuse river.

The Germans are in better position for carrying on a big offensive now than they were then as they have not got Russia to contend with and practically all of the German army is now engaged in the gigantic double drive.

This was the forty-third day of the drive and so far all the objectives which the Germans set out to take—Amiens, Arras, Ypres, and Hazebrouck—are still safe in Allied hands. Before the Germans can have even the slightest hope of breaking through to the English Channel, they must capture these cities.

CAMP UPTON VISITOR ONE OF OUR SAILOR BOYS

Unexpected Magnitude of the Camp and Fine Spirit of the Men—Work By the Various Societies is Excellent.

Patchogue, L. I., April 29.—I'm just back from Camp Upton and so thrilled with it all, I must sit down and tell you about it.

To begin with, it is so infinitely much larger than I had any conception of its being. Why its literally miles and miles of houses. Every you look is this army of buildings sheltering 40,000 souls.

There are broad orderly streets and marching along on either side, in the most approved military style, go the little and big gray buildings. There are barracks which are mess halls and sleeping halls, and storehouses—in front of this last, soldiers were piling up shoes and uniforms and other equipment on the Q. M. S., the big motor trucks, that go dashing around the camp distributing the supplies. There is a cunning little church, a big base hospital, which is a village in itself and real houses and more houses and still more houses, and yet you have not seen the half of them.

The elements have worn the unpainted pine of which they are built, to a soft gray and the green of the numerous huts of the Y. M. C. A. is easily picked out against the background. The brown clad soldiers are all over the place. Sometimes they are marching or else they are drilling, sometimes they are just strolling around, off duty, singly or in pairs or in squads of three or four with an occasional woman to add gaiety to the scene.

There are several baseball games going on, the band is beating out a gay air in one of the rest huts, a waltz of song comes rippling forth to us, there are signs up at various parts of the camp calling attention to "Gerard's Four Years in Germany" at the Liberty Theatre, the place where the Smilge Books are redeemed.

Many of the families of the boys are in camp today, for the word has come that the division moves within the week. Of course for obvious reasons, the exact date is not given, but its marching orders and they all know that. Mothers, wives, sisters, sweethearts—every woman that has a claim of any sort on any boy is here to cheer him on his way. Not that the boys visibly need the bucking up, for you never saw a finer spirit than they are showing. Big, husky, handsome lads; they are prancing to be off. And the women also are playing up and no one would be so foolish as to notice it, if for one tiny second some woman's lip quivers when she looks at her boy.

The Jewish Welfare, the Y. M. C. A., the Y. W. C. A. and the Knights of Columbus all have rest houses on the cantonment and a great rush is on this afternoon in each.

We spent an hour in one of the Y. W. C. A. hostess houses. This particular one, they are two, is very attractive. It is a long, low, brownish building, the upper part of which is the sleeping quarters of the staff. Across its front is quite a wide covered porch where many of the boys were sitting with their friends. Inside is a very large living room, the lounge, that runs the length of the building; the walls are grayish in tone, the many windows are curtained in yellow, the furniture is low, wicker, comfy to sit it and pleasant to look at. One of the rooms is the fireplace and at the end of the cafeteria which was doing a thriving trade. A very business like young person presided at the cash register and did it as artistically as though she had served her apprenticeship at Child's or the Opera.

At the desk were several more young women ready with helping hands to smooth the difficulties that are presented thick and fast—for the male. "Bless him" is a bit, sometimes its trains, sometimes taxis or telephone calls, or its "Don't you think there is possibly a place where my mother could stay tonight?" "Have you heard our battalion is going?" "How long will it take us to get to that last train" or it may be only stamps for one of the many letters and that go floating out every mail. And over it all, is the gracious wise house mother, the court of last appeal, who has the right response for every need.

Uncle Sam is taking good care of his boys while he is making them first-class fighting men, the boys are going straight. The cantonments of this great government are doing their biggest and best, whether they are giving work or play, in helping them to it. You would never believe any thing else. If you see these boys working, playing, singing, laughing and then squaring their brave young shoulders, "Forward, March!" it's Overseas.

Kaiser's Head on Coin.

Down in Newburgh a William street man Tuesday in looking over his money found a Buffalo nickel on which the head of the Indian had been so altered that it was a first class reproduction of the Kaiser wearing a trench helmet. It is a violation of the law to mutilate any United States coin for any purpose.

HUDSON RIVER SHAD PLENTIFUL

Millions of Shad Said to be in River—Prices are Still Being Held High, However—May Drop to 25 Cents a Shad Later.

The succulent Hudson river shad has come into its own again, and prices range from 75 cents upwards. The shad season in past years has not proven profitable as there were not many shad caught, but this year the shad is flocking up the river, by millions. Thousands are taken from the river every night between Hyde Park and Stony Point, and Tuesday night one fisherman netted six hundred at Hyde Park.

From Poughkeepsie comes the statement that buyers from New York came up the river last week and paid fishermen 40 cents a pound for shad at the wharf. The big drive pushed the price down to 15 cents a pound Wednesday, and fishermen predict that in another week the price will go to 5 cents a pound.

It is said that before the season ends shad will be selling at 25 cents each, as they were twenty years ago. Local fishermen are also making good hauls in the river at this point. One man is said to have netted \$100 since the season started.

ARE SCOUT LEADERS LACKING IN PEP?

While Troops 1 and 6 of the Boy Scouts of Kingston are right on the job and hustling to sell Liberty Bonds for this third Liberty Loan sale, and it is known that Troop 5 is also very busy, the other troops are not doing anything to be proud of. It has been impossible to have the report from Troop 5 owing to the unavoidable absence from town until today of Troop Master Rev. J. I. Blair Larned, but no apprehension of a slackers' report is expected from that quarter. It is hard to understand why the other troops, made up of just as thoroughly alive and patriotic boys as these three troops are so far behind unless their troop masters are not awake and backing them up to the very limit of what they can accomplish. During the last previous sale, complaint was made that by the way in which Kingston was divided up into sections some of the troops had better territory than others. This complaint came from scout masters, not the boys. So in order to do away with any such excuse for laying down on the job this time, the entire city was thrown open to every single Boy Scout in the city to go where he could or would and sell every bond he possibly could. While it was known that the boys would be handicapped in that they would be glancers, not reapers this time, still it was well known that there would be a ripe and full harvest for those boys who were smart and willing to hustle. If the scout masters have no push or initiative to help their boys, here is a suggestion or two for the boys themselves:

Try to sell bonds or a bond to the folks who live upstairs or downstairs in your house. Then try the folks next door and across the street and just around the corner. Most likely some of them have not been asked. Then don't overlook the people who have only a very little money. They all know the meaning of money and what hardships lack of money can bring upon one, so want to help their neighbor and the men at the front as much as possible. Just begin right at home then go next door, across the street, and farther and farther from home in a widening circle, and don't miss anybody as you go. It means work, hard work, but it means doing your bit just as well as the men at the front are doing theirs. Not a boy of you would be satisfied to have some one say "Somewhere in France," or at camp think you were a slacker in selling bonds. Do your biggest today, tomorrow and Saturday on your own hook, whether your scout master urges you or not. Begin the minute you read tonight's Freeman, whether or not you have had supper. Get your treasury department medal and the satisfaction of having done your part, there is still time.

WAR CHEST PLAN PUT OVER UNTIL FALL

Mayor Canfield Appoints Committee to Investigate and Report on September 4—Will Not Be Confused With Red Cross Drive.

The determination of the proposition of substituting a War Chest Drive for the Red Cross, Y. M. C. A., Knights of Columbus and any other war fund drives has been postponed until September, and notice of such postponement has been sent by Mayor Canfield to those who have attended the various conferences which have been held recently.

A meeting of those interested will be held at the supreme court library at the court house on Wednesday evening, September 4, at which time the committee appointed by the mayor will report. The reason for postponing action until September is to give the committee more time to determine whether the War Chest plan has been successful in other cities. The time for determination of the matter before the Red Cross drive begins is considered, too short for satisfactory investigation and consideration, and there probably will not be any war fund drive in progress until the Y. M. C. A. drive in October. Mayor Canfield's letter, announcing the postponement of the committee appointed to investigate the matter, is as follows:

At a conference held at the court house on the 29th inst. in reference to the War Chest plan of raising funds, it was the sense of the meeting, as evidenced by a resolution, that a committee should be appointed to determine whether we should adopt the said plan and have such a campaign, and if so, the proper time for such a drive, and also to recommend what funds should be included, with myself to act as chairman of such committee.

In pursuance to said resolution, I have appointed the following committee: Hon. G. D. B. Hasbrouck, Messrs. Edward G. Kennedy, John D. Schoonmaker, John E. Maher, Frank R. Powley, Joseph M. Mahert, Sam Bernstein and Harry P. Dodge.

A meeting of said committee will be held at the supreme court library, court house, Wednesday evening, September 4, at 8 o'clock. Will you kindly be present at such meeting? Yours respectfully, PALMER CANFIELD, JR.

Christian Science Bill Signed.

Thirty-Two Specials Sworn In.

Wednesday evening thirty-two of the special police, whose terms had expired, were sworn in for another year by City Clerk Doremus at the city hall. Attorney F. C. Merritt gave them a vigorous talk on patriotism and defined their duties.

Wednesday afternoon City Judge Schirick, City Marshal Rice and Peter Crough, went fishing and returned home with a fine mess of bullheads. They had over fifty in their string.

BRITISH LINER SINKS U-BOAT

By Telegram to The Freeman.

An Atlantic Port, May 2.—A big British liner, which recently carried many American troops to France, returned here today with the report of having sunk a U-boat on the return trip. Twelve passengers and a number of Canadian and British soldiers who are to take part in the final hours of the third Liberty Loan drive in New York City watched the encounter.

The German submarine appeared four days after the convoying destroyers had departed. From a distance of a mile and a half the U-boat sent a torpedo which went wide of its mark. As she dashed after the zig-zagging liner, the submarine fired another torpedo that passed astern. Meanwhile the steamer's gun crew got into action and sent 14 shots at the submarine. The gunners say that their twelfth and fourteenth shots were effective, as the U-boat vanished and was not seen again.

BRIEF REVIEW OF THE BATTLE NEWS

The deadlock which developed on the Picardy and Flanders battle fronts following the severe defeat administered by the Anglo-French forces to the Germans on Monday along the Franco-Belgian frontier was unbroken today. There were indications, however, that a renewal of infantry operations would be forthcoming soon, for the artillery activity was increasing in both zones of battle.

Merris lies between six and seven miles east of Hazebrouck, one of the chief local objectives of the Germans in the north. For a long while that sector of the northern front has been comparatively quiet while the Germans centered their assaults immediately southwest of Ypres in a desperate effort to compel the British to give up a row of hills in the Locre-la-Croix district and eventually bring about the evacuation of Ypres.

The brown clad soldiers are all over the place. Sometimes they are marching or else they are drilling, sometimes they are just strolling around, off duty, singly or in pairs or in squads of three or four with an occasional woman to add gaiety to the scene.

There are several baseball games going on, the band is beating out a gay air in one of the rest huts, a staff of song comes rippling forth to us, there are signs up at various parts of the camp calling attention to "Gerard's Four Years in Germany" at the Liberty Theatre, the place where the Snailgale Books are redeemed.

Many of the families of the boys are in camp today, for the word has come that the division move within the week. Of course for obvious reasons, the exact date is not given, but its marching orders and they all know that. Mothers, wives, sisters, sweethearts—every woman that has a claim of any sort on any boy is here to cheer him on his way. Not that the boys visibly need the bucking up for they never saw a finer spirit than they are showing, big, husky, handsome lads they are prancing to go off. And the women also are playing up and no one appears to notice it. If for one tiny second some woman's lip quivers when she looks at her boy.

The Jewish Welfare, the Y. M. C. A., the Y. W. C. A. and the Knights of Columbus all have rest houses on the campment and a great rush is on this afternoon in each.

Y. W. C. A. hostess houses. This particular one, they are two, is very attractive. It is a long, low, brown-shingled building, the upper part of which is the sleeping quarters of the staff. Across its front is quite a wide covered porch where many of the boys were sitting with their friends. Inside is a very large living room, the lounge, that runs the length of the building; the walls are grayish in tone, the many windows are curtained in yellow, the furniture is low wicker, comfy to sit in and pleasant to see. At one of the rooms is the fireplace and at the other is the cafeteria which was doing a thriving trade. A very business like young person presided at the cash register and did it as artistically as though she had served her apprenticeship at Child's or the Opera.

At the desk were several more young women ready with helping hand to smooth the difficulties that are presented thick and fast—for the male. "Bless him," is a bit, wee bit, helpless along certain lines, sometimes its trains, sometimes taxis, or telephone calls, or its "Don't you think there is possibly a place where mother could stay tonight?" "Have you heard our battalion is going?" "How long will it take us to get to that last train?" or it may be only stamps for one of the many letters that go floating out every week. And over it all, is the gracious, wise house mother, the court of last appeal, who has the right response for every need.

Uncle Sam is taking good care of his boys while he is making them first-class fighting men, the boys are going straight. The cantonments of this great government are doing their biggest and best, whether they are giving work or play, in helping them to it. You would never believe anything else. If you see these boys working, playing, singing, laughing and then squaring their brave young shoulders, "Forward, March!" is the cry.

HUDSON RIVER SHAD PLentiful

Millions of Shad Said to be in River—Prices are Still Being Held High, However—May Drop to 25 Cents a Shad Later.

The succulent Hudson river shad has come into its own again, and prices range from 75 cents upwards. The shad season in past years has not proven profitable as there were not many snags caught, but this year the shad is flocking up the river by millions. Thousands are taken from the river every night between Hyde Park and Stony Point, and Tuesday night one fisherman netted six hundred at Hyde Park.

From Poughkeepsie comes the statement that buyers from New York came up the river last week and paid fishermen 40 cents a pound for shad at the wharf. The big drive pushed the price down to 15 cents a pound Wednesday, and rivermen predict that in another week the price will go to 10 cents a pound.

It is said that before the season ends shad will be selling at 25 cents each, as they were twenty years ago. Local fishermen are also making good hauls in the river at this point. One man is said to have netted 100 since the season started.

SUPERVISORS TO APPORTION MONEY

A special meeting of the board of supervisors has been called for Friday evening, May 17, at 7:30 o'clock at the court house for the purpose of apportioning the motor vehicle money which is received from the state. The amount to be apportioned is about \$20,000.

ARE SCOUT LEADERS LACKING IN PEP?

While Troops 1 and 6 of the Boy Scouts of Kingston are right on the job and hustling to sell Liberty Bonds for this third Liberty Loan sale, and it is known that Troop 5 is also very busy, the other troops are not doing anything to be proud of. It has been impossible to have the report from Troop 3 owing to the unavoidable absence from town until today of Troop Master Rev. J. I. Blair Larned, but an apprehension of a slacker's report is expected from that quarter. It is hard to understand why the other troops, made up of just as thoroughly alive and patriotic boys as these three troops are so far behind unless their troop masters are not awake and backing them up to the very limit of what they can accomplish. During the last previous sale, complaint was made that by the way in which Kingston was divided up into sections some of the troops had better territory than others. This complaint came from scout masters, not the boys. So in order to do away with any such excuse for laying down on the job this time, the entire city is divided up into every single boy.

Scout in the city to go where he could or would and sell every bond he possibly could. While it was known that the boys would be handicapped in that they would be plannings, not reapers this time, still it was well known that there would be a ripe and full harvest for those boys who were smart and willing to hustle. If the scout masters have no push or initiative to help their boys, here is a suggestion or two for the boys themselves: Try to sell bonds or a bond to the folks who live upstairs or downstairs in your house. Then try the folks next door and across the street and just around the corner. Most likely some of them have not been asked. Then don't overlook the people who have only a very little money. They know the meaning of money and what hardships lack of money can bring upon one, so want to help their government and the men at the front as much as possible. Just begin rapping at home then go next door, across the street, and farther and farther from home in a widening circle, and don't miss anybody as you go. It means work, hard work, but it means doing your bit just as well as the men at the front are doing theirs. Not a boy of you would be satisfied to have some one you know "Somewhere in France," or at camp think you were a slacker in selling bonds. Do your biggest today, tomorrow and Saturday on your own hook, whether your scout master urges you or not. Begin the minute you read tonight's Freeman, whether or not you have had supper. Get your treasury department medal and the satisfaction of having done your part, there is still time.

WAR CHEST PLAN PUT OVER UNTIL FALL

Mayor Canfield Appoints Committee to Investigate and Report on September 4—Will Not be Confused With Red Cross Drive.
The determination of the proposition of substituting a War Chest drive for the Red Cross drive, Knights of Columbus and any other war fund drives has been postponed until September, and notice of such postponement has been sent by Mayor Canfield to those who have attended the various conferences which have been held recently.

A meeting of those interested will be held at the supreme court library at the court house on Wednesday evening, September 4, at which time the committee appointed by the mayor will report. The reason for postponing action until September is to give the committee more time to determine whether the War Chest plan has been successful in other cities. The time for determination of the matter before the Red Cross drive begins is considered, too short for satisfactory investigation and consideration, and there probably will not be any war fund drive in progress until the Y. M. C. A. drive in October. Mayor Canfield's letter, announcing the personnel of the committee appointed to investigate the matter, is as follows:

At a conference held at the court house on the 20th inst., in reference to the War Chest plan of raising funds, it was the sense of the meeting, as evidenced by a resolution, that a committee be appointed to determine whether we should adopt the said plan and have such a campaign, and if so, the proper time for such a drive, and also to recommend what funds should be included, with myself to act as chairman of such committee.

In pursuance to said resolution, I have appointed the following committee: Hon. G. D. B. Hasbrouck, Messrs. Edward O'Connell, John D. Schoonmaker, John E. Mahar, Frank R. Bowler, Joseph M. Herbert, Sam Bernstein and Harry P. Dodge.

A meeting of said committee will be held at the supreme court library, court house, Wednesday evening, September 4, at 8 o'clock. Will you kindly be present at such meeting? Yours respectfully, PALMER CANFIELD, JR.

BRITISH LINER SINKS U-BOAT

By Telegram to The Freeman.
An Atlantic Port, May 2.—A big British liner, which recently carried many American troops to France, returned here today with the report of having sunk a U-boat on the return trip. Twelve passengers and a number of Canadian and British soldiers who are to take part in the final hours of the third Liberty Loan drive in New York City watched the encounter.

The German submarine appeared four days after the convoying destroyers had departed. From a distance of a mile and a half the U-boat sent a torpedo which went wide of its mark. As she dashed after the zig zagging liner, the submarine fired another torpedo that passed astern.

Meanwhile the steamer's gun crew got into action and sent a salvo at the submarine. The gunners say that their twelfth and fourteenth shots were effective, as the U-boat vanished and was not seen again.

VICTORY MENUS.

These menus, planned to conserve time, labor and money, to save the foods that are scarce and use those of which there is an abundance, are Victory Menus in more senses than one. They are prepared by the Department of Home Economics of the State College of Agriculture and Forestry by the New York State Food Commission.

Friday

Breakfast—Apple sauce with lemon; hominy grits; maple sugar and top milk; bean simalaba; coffee.

Lunch or Supper—Potato and celery croquettes; onion sandwiches; oatmeal cookies; cocoa.

Dinner—Steamed fish with egg sauce; boiled potatoes; buttered young carrots; prune and apricot tarts with barley and potato pastry.

Milk for the children to drink at each meal.

(May be omitted and still leave a balanced meal.)

Wheat bread is a luxurious habit. It is the easiest kind of bread to make, but it is far from being the only kind, nor is it any better than many others. The south kept the north on the run for three years on corn pone. The quick bread habit is a good one to get right now, because the quick bread is the best kind to save wheat and the battle cry of every food patriot who can control his own food is coming to be, "No wheat until next harvest." Left-over cereals and mashed potatoes can be used to take the place of wheat in breads and in this pressed cakes baked in the oven.

Potato and Celery Croquettes.

Two cups cold mashed potato, 1-3 cup finely chopped celery, salt, pepper, 2 tablespoons minced onion, 1 egg.

Beat the egg well, add the potato and mix thoroughly; then add the remaining ingredients. Shape into croquettes, roll in egg, then in crumbs and saute or bake until brown.

Bean Timbales.

One cup cold boiled or baked bean pulp; 1 cup milk, 2 eggs, well beaten; 1 tablespoon melted butter; 1/4 teaspoon salt; 1/4 teaspoon paprika.

Combine the ingredients in the order in which they are given. Pour the mixture into custard cups. Set the cups in a pan of hot water and bake in a moderate oven until the custard is set.

Recipes for any of the dishes in these menus which cannot be found in cook books, may be had by writing to the Department of Home Economics, State College of Agriculture, Ithaca, N. Y.

OUR DAILY PATTERN.

2238—A Smart But Simple Style. Dress with bolero and with sleeve in either of two lengths (for misses and small women).

This is nice for sports materials, for combinations, for silk, velvet, serge, gabardine, voile and crepe. The waist may be of lining and over laid with material at the arm edges. The sleeves and collar could be of contrasting material. The pattern is cut in 3 sizes: 16, 18 and 20 years. Size 18 requires 6 1/2 yards for skirt and bolero and 2 1/2 yards for the waist, of 24-inch material. The skirt measures about 2 1/2 yards at the foot. A pattern of this illustration, mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.

Send 10c in silver or stamps for our Up-to-Date Spring and Summer, 1918, Catalogue, containing 550 designs of Ladies', Misses' and Children's Patterns, a dressmaking and comprehensive article on dressmaking; also some points for the needle (illustrating 30 of the various, simple stitches) all valuable hints to the home dressmaker.

HERE'S A MAN'S MAN.

"As long as men go to the front at the risk of being shot," writes Lloyd H. Nelson, a New Jersey farmer, in a letter to the United States Food Administration, "it is clearly my duty to risk all I possess. It is my duty to take a full risk in planting as many extra acres as my means will permit. This I am doing in 1918."

"Having leased two extra farms, I propose making this year the supreme effort of my life. If I make a good profit it will be fully earned. If I bat make expenses and produce four times as much feed as last year it will be my opportunity to give strength to give courage to help win. I am planning to farm to the extreme limit."

Better Cooking With Less Waste

Mazola—the Oil from Corn—Most Economical for Cooking and Salads

THERE is a nation-wide effort to be thrifty—in kitchen methods as in everything else.

And so housewives are turning to the most economical foods and the most economical ways of preparing food.

For deep frying, sauteing, shortening and salad dressings they are using pure, wholesome Mazola.

Not only because they have found that there is less waste to Mazola—it can be used over and over again until every drop is gone as it never carries taste or odor from one food to another.

But also because Mazola makes such superior and easily digested fried foods, such smooth, delicate salad dressing.

Gives better results than lard, suet or compounds and enables you to do your share in saving these animal fats.

For sale in pints, quarts, half gallons and gallons. For greater economy buy the large sizes.

There is a valuable Cook Book for Mazola users. It shows you how to fry, saute, make dressings and sauces more delicious, make light, digestible pastry. Should be in every home. Send for it or ask your grocer. FREE.

Don't Let BUGS Eat Up Your Garden

Of course, you will catch the big ones, but the little fellows! Look out for them. They are really quite as dangerous. Aphids, a little green bug, not much larger than a pin head, once it gets a start, will destroy a garden. It sucks the juices of the plants, stunts their growth and lowers both yield and quality. Spray peas, beans, cabbage, cauliflower, turnips, onions, cucumbers and other vegetables and flowers with Black Leaf 40.

Kills Aphids, Thrips, Leaf Hopper and other soft-bodied, sap-sucking insects on trees, shrubs, flowers, vines and vegetables. Black Leaf 40 is highly concentrated. A little goes a long way. Manufactured by The Kentucky Tobacco Product Co., Incorporated, Louisville, Kentucky. We can supply your needs from one ounce for small vegetable and flower gardens up to 10-pound containers for large orchards. Recommended by Agricultural Colleges and Experiment Stations.

FREE SPRAY CHART for orchardists, gardeners and flower growers. Tells when and how to spray and how to use. Come in and get one.

AN HONEST GERMAN.

The case of Prince Lichnowsky in 1918 shows, as did the case of Maximilian Harden in 1900, that the love of the truth and the right is not utterly dead in Germany, that not every German is willing to believe that black is white at the bidding of military highwaymen and cutthroats. Harden lay in jail for six months in 1900 because he dared to protest when the Kaiser ordered his soldiers bound for Peking to give no quarter, show no pity, and make the Chinese of all classes remember the Germans for a thousand years as Europeans remembered the Huns. Prince Lichnowsky is now in prison awaiting trial because he has dared to write in his memoirs the truth about the origin of this war and to express the opinion that in the end the Allies must and will win.

Prince Lichnowsky was the German Ambassador at London when the great war began and he seconded the efforts of the British government to call a halt and convene a peace conference of the nations. In his memoirs he shows that all such efforts were vain because in the conference at Potsdam on July 5, nearly a month before the outbreak, the Prussian militarists decided that the long looked for "day" (of the beginning of the German conquest) had come and that the difficulty between Austria and Serbia furnished the desired pretext. He is quoted as saying that the cause of peace was wrecked "not by English perfidy but by the perfidy of our own German policy," and that "the struggle Germany has provoked will end in triumph for her opponents and she will stand alone." It would appear that this honest German does not care what happens to him, for he has despaired of his country and knows that Germany is to become a leper nation to be abominated and shunned by all the world.

The precise reason for not divulging where sick and wounded soldiers from the American Expeditionary Force who have been brought back to this country are being taken is hard to understand. During the week of April 26, the number of sick and wounded who were landed in this country numbered one hundred and thirteen, according to an announcement made on Wednesday by Surgeon General Gorgas. We know, from day to day, the number of casualties in the American Expeditionary Force, and the names and rank are announced of those who have been killed in battle, wounded seriously or slightly, or died of disease or wounds. We know, too, that sick and wounded will continue to be brought to this country to recuperate. Then why suppress the fact of where they will recuperate? The information possesses no military value and we have had enough information of where the Government intended to erect base hospitals to know that the intention has been to exercise the utmost care for the sick and wounded, not only abroad but also when they are returned to the United States. The good intentions have been and are being carried out, and such being the case, why not let the people know instead of following a policy of useless suppression which leads to justifiable faultfinding which in turn leads to unjustifiable criticism of proper suppression? The only conceivable reason for suppressing facts of this character is the fear that enemy sympathizers in this country, following the German policy of frightfulness practiced abroad, would endeavor to injure still more by whatever means they could command the sick and injured who return home. Inhuman atrocities appeal to the German mind that still seeks the elevation of Kultur in all lands. The surest preventive of such atrocities here is the severe punishment of those already guilty of heinous crimes of other kinds, but in such a course we seem extremely weak.

A local correspondent of the New York Sun writes to complain of the "tango pirates" who infest Broadway restaurants, particularly at the tea hour, and who fascinate and prey upon young women. "I have a relative, a young married woman," she writes, "who is completely fascinated with one of these youths, and I have been told that there are a great many others who are getting women's money away from them." In

reply the Sun's editor confesses he does not know what is to be done to cure a woman of such an infatuation, adding: "Probably the worst thing to do is to argue with the victim." The Sun suggests no method of dealing with the "tango pirates" themselves, but in these days of industrious draft officers there ought to be a way. What these "fascinating" young parasites need is to have a gun thrust into their hands and be made to drill from sunrise to sunset. That would leave them neither the time nor the inclination to "tango" the money out of the purses of foolish young women.

LITTLE LAUGHS.

"You should have seen the rosy flush on her cheek." "You should have seen the straight one in my hand."—Baltimore American.

Impressionist—"I paint things as I see them." Critic—"Then you shouldn't paint while you are seeing things like that."—Boston Transcript.

"You must be very proud of your son, Mr. Scadds. What is he doing?" "Nothing; but he does it so well that you can't help admiring him."—Life.

"Would you seriously object to lending me \$50 for a few days?" "Oh, no." "Really? That sounds encouraging." "You misunderstand me. I meant that I wouldn't entertain such a proposal seriously."—Birmingham Age-Herald.

How His Honor Felt.

In a western court not long ago the judge, of Celtic extraction, addressed a frequently convicted prisoner in these terms:

"Are you aware that for these repeated breaches of the law it is in my power to sentence you to a term of servitude far exceeding your natural life, and that, furthermore, I am very much inclined to do it?"—Harper's Magazine.

The Age of Reason.

Jimmy giggled when the teacher read the story of the Roman who swam across the Tiber three times before breakfast.

"You do not doubt that a trained swimmer could do that, do you, Jimmy?" the teacher demanded.

"No, ma'am," answered Jimmy. "But I wondered why he didn't make it four times and get back to the side his clothes were on."—Exchange.

Needed More Pull.

McCole, a new recruit, was sent out for target practice on the ranges. He did fairly well at 200 yards, for a new one, but at 500 yards he generally managed to drop his bullets short. The sergeant patiently explained the raising of the sights, but McCole still fell short.

"Why can't you shoot higher?" demanded the sergeant. "What's the trouble?"

"I've found out what the trouble is, sir," answered the recruit. "I'm afraid I haven't been pulling the trigger hard enough."—New York Evening Post.

Military Modesty.

One of the latest stories in regard to the "gentleman ranker" in the British army is reported here. An officer who superintended the receipt of a large and varied stock of stores felt the need of a clerk, and told the sergeant major to hunt up one from among the men. The sergeant major could not find a man who "pleaded guilty" to being a clerk, but he eventually singled out a sober-looking private and took him before the officer.

"Are you a clerk?" demanded the captain.

"No, sir," replied the man.

"Do you know anything about figures?" asked the captain, sourly.

"I can do a bit," replied the man modestly.

"A bit," snarled the officer. "Is this the best man you can find?" said he to the sergeant major.

"Yes, sir," said that worthy.

"Well, growled the captain. "I suppose I'll have to put up with him."

Turning to the private he stammered, "What were you in civilian life?"

"Professor of mathematics at College, sir!" was the reply.

Why my filmiest curtains never tear in the laundry

I USED to hang my dainty new curtains with a sigh, dreading from the beginning the ominous day when they would have to be spoiled in the laundry.

Now I never give them a thought—I have found how easy it is to keep them always fresh and new.

I wash them the modern way in pure Lux suds, and with no rubbing. The dainty Lux flakes dissolve instantly in hot water and whip up into rich, pure suds. I soak the sheer lace curtains in the foamy lather—gently squeeze the cleansing Lux suds through them again and again, then take them out so clean and fresh, with not a thread broken.

With Lux there is none of that old-time rubbing to break and tear the sheer material—there

are no particles of undissolved soap to cling to the delicate threads through all the rinsings, and to coarsen and yellow them.

Try Lux for your latest curtains—for your fragile laces and finest table linen. See for yourself how simple it is to keep them white and pure. Your grocer, druggist or department store has Lux. Lever Bros. Co., Cambridge, Mass.

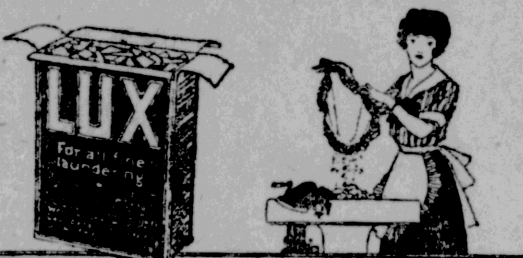

How to wash fine curtains

Shake the dust carefully out of the curtains, then let them soak in clear, cold water for an hour to loosen the dirt. The suds of Lux in a gallon of water. Dissolve in boiling or very hot water, and whisk into a thick lather. Put the curtains in and soak thoroughly. Squeeze the suds through the fabric. Do not rub. Rinse three times in clear, hot water, and dry in the sun.

Silk and Colored Curtains should not be soaked. Wash in cold water, then wash quickly in lukewarm suds. Rinse three times in clear, lukewarm water, and dry in the shade.

Use Lux for anything that pure water alone won't injure

CHINESE SING AT ARMY Y. M. C. A.

Wise Men From the East Who Carry Umbrellas in Military Service—The Phonograph Record That Should be Blank.

At the Same Place, Somewhere in France, April 8.—Today it is quite cool again for a change. The weather is still very changeable, rain one minute and clear the next. There are a bunch of Chinese coolies here and they all are wise men and carry umbrellas. In fact I never go anywhere myself now, even though it be a cloudless day, without my raincoat. It seems to be the rain is just getting here. And it rains with so little effort. For 11 days we have not been without several showers a day. But still it has been sunny France, for when it rains the sun sometimes shines. I went out the other morning at 6:45 and saw a perfect rainbow in the west.

I am still on the same old job, jogging along to town about every day. Now there is a new order in effect in regard to liberty. Any man who has a clean record, no A. W. O. L., or other blot on his record, has a permanent pass good for any time when he is off duty, so we can go out of camp or to town when work is done. Of course, we must be back at 10 o'clock. Formerly it was 10% on Sunday afternoon.

As usual, Jacob and I went to town and had a very fine time. We went to the rink in the afternoon and "jake" met his friend and we skated and learned French. She can speak English very well and is studying it. She has a brother, a captain in the French army and a second, a lieutenant, both now at the front. Her home is not where she now is, but was up farther until she moved from the city on account of danger. Ritter and I met the other two friends. I skated a bit, and then we walked home with them and then ate. We are going easy now, no more big feasts until next pay day, so ate a 2 franc meal. We both enjoyed the skating so well we returned at night. Our friends, as is the custom here among the better class of people, do not go out in the evening unless accompanied by their parents.

Well I was skating about three minutes when off came a skate and I stopped very suddenly. It was my only spill.

You say you have a very noisy Victrola record of what is supposed to be the departure of a transport for France. Well, let me tell you there is no way a phonograph can present that, except by a blank record. You go aboard a ship, or at least I did, you hang around and cuss the delay all day and then at night a half dozen wheezing, snorting tugs hook on while you are in dreamland and nose you out of your pler and you are "outward bound." Next morning you awake to the smooth rhythmic sound of turning propellers and dress hastily, dash up on deck (if the guard will let you) and look out expecting to get a farewell look at the fast fading U. S. but find only water. You feel like you are having a bad dream, then later feel as if you are on a short sea excursion and may see the harbor again any minute. But you don't. You don't wake up and first thing you know you become aware you are not on pleasure bound, and in a few days you go about with life belt strapped on, canteen full of water and then comes the order to sleep with your clothes on, and you realize it is not a dream and you are awake and in the U-boat zone.

Lights are always out and there is no noise above decks. At sundown smoking on deck is taboo and then you see the mosquito fleet coming to meet you and that is one time nothing in the world can keep back a cheer.

But the big noise comes when you see port, safe and sound. I will never forget the feeling when we sighted French aces after sailing the Lord only knows where for three weeks, for we knew land was near when aeroplane could come to meet us.

There won't be any silence when the boys come home and it will take a good, noisy record to produce their arrival in America.

I have heard from John Beaver and also Joe Burgevin, who has been called. Received a letter from Lieut. Saunders, Dr. Brewer and a package of "sweets" from Miss Lichenau. Your packages have not yet arrived, neither has Aaron Cohen's.

The other night they had a novelty program at the "Y." Several Frenchmen sang some Chinese sang, also Italians and others. I think the Chinese singing is about the best ever, a sort of combination squeal and giggle.

Please send my pocket compass—the little army one. It saw service at Plattsburg, and why not in France. Something is going on outside. I hear clattering guns down the road. Either a bunch of "come-overs" just arrived from home, or some more going to the front. I hope it is arrivals, for I like to see business coming our way and we expect five times as many men here as now very soon. We might get lonesome soon, with all the departures for the front and no new arrivals.

FRED.
METTACAHONTS.

Mettacahonts, May 2.—Don't forget the patriotic entertainment to be given for the benefit of the Red Cross on Friday evening, May 10th, at the school house by the children of the district under the management of our way and we expect five times as many men here as now very soon. LIEUTENANT DAWE HAS BROKEN FOOT

Knocked Down by Army Truck—Is Home on Leave of Absence—Was Stationed at Camp Hancock in Georgia.

First Lieutenant Richard C. Dawe of Camp Hancock, Augusta, Georgia, reached his home in this city Wednesday evening with a broken foot sustained when he was accidentally run down by a big army automobile truck recently. Lieutenant Dawe is able to walk a short distance with the aid of crutches. He is a son of Mr. and Mrs. Richard Dawe of No. 11 Lawrence street.

Lieutenant Dawe will be unable to use his foot for a month or six weeks. Army life agrees with him. When he entered the army he weighed 165 pounds and now tips the scales at 180 pounds and is in first-class physical condition, aside from his injured foot, which while it is painful is not considered serious.

Lieutenant Dawe was a member of the first officers' camp at Madison Barracks and was recommended for a first lieutenant. When he received his commission he was sent to Camp Dix and later to Camp Hancock where he was assigned to the 11th Infantry.

STONE CO. GIVES BIG MORTGAGE

The Upper Hudson Stone Company has filed in the county clerk's office a consent of stockholders authorizing the directors to issue six per cent three-year gold mortgage bonds to the amount of \$250,000, and also has filed a copy of the mortgage, which has been given by the company to the Columbia Trust Company of No. 60 Broadway, New York city, the mortgage covering various properties of the company including property in Ulster county. A new troop, Troop 3, is to be inaugurated on Saturday of this week at 3 o'clock, at the Albany Avenue Baptist Church. MEASLES EPIDEMIC SPREADING HERE

Wednesday fourteen new cases of measles were reported to the board of health, making over 50 cases that have been reported in the past five days. The cases are not confined to one locality but are scattered all over the city. Dr. Laidlaw, of the state department of health, is in Kingston assisting the local board. Every effort is being made to prevent a further spread of the disease.

STREET OILING TO START SOON

The first carload of street oil was received by the board of public works Wednesday evening. The car contained 10,000 gallons of road oil. The board expects to oil practically every street that was oiled last season with the exception of those on which Willite is laid.

FATE OF DEAD AND WOUNDED FLAGS

Mrs. Margaret Anderson, patriotic instructor of the Ladies' Auxiliary of the Sons of Veterans, Tappan Camp, No. 53, has asked the co-operation of the Boy Scouts of Kingston in the collection of the dead and wounded flags in this city. There are at present many flags too worn and faded, dirty or ragged to be fit to be hung to the breeze as the emblem of our country. Yet it would be even more undesirable to have these flags come to any ignominious end as they sometimes do. Mrs. Anderson has the authorization of the government to collect all such flags and will later instruct her just what disposition to make of these flags. It is expected that they will be held until after the war and then used for decorating purposes, during parades of returned soldiers and sailors, etc., as being survivors of the greatest war in history.

At present all persons owning any such worn or unfit flags are asked to notify Scout Headquarters, telephone 1680, or any of the Boy Scouts and they will call for the flags, which after being collected at Scout Headquarters, will be turned over to Mrs. Anderson, who will make such final disposition of them as she is authorized to do by the government.

If your flag has done duty until it has given up its life for its country, see to it, that in this way it receives final honors befitting such service.

Home Nursing Classes Ready.

Miss Lampman, Red Cross nurse, who is to have charge of the two new classes in Red Cross elementary hygiene and home nursing, reports that two classes, filled to the limit, including 45 members have been inaugurated and will be ready to begin instructions as soon as their applications return from Washington. Miss Margaret Murphy of 774 Broadway is president of one class and Miss M. Dippold of 44 Broadway is president of the other class. Announcement will be made as soon as word is received from headquarters, as to the evenings when these classes will be held. As so many members of these classes wish to further take up the course in First Aid work, the class already waiting to begin this instruction will not be asked to wait for them to finish this course, but a First Aid class will be promptly formed. The classes in Elementary Hygiene and Home Nursing will be held at the Kingston City Hospital.

BARNUM & BAILEY SHOW HERE MAY 24.

Five Railroad Trains Required to Transport "Greatest Show on Earth," Which Has Many New Features and Attractions.

Advertising Car No. 1 of the Barnum & Bailey Circus is in town and the preliminary advertising campaign has begun. The advertising car is in charge of W. C. St. Clair, who is accompanied by a corps of thirty men. W. L. Wilkin, the first of the press agents, who looks after newspaper advertising, arrived in town at the same time and an aggressive advertising campaign will be carried on.

The "Greatest Show on Earth" will exhibit here on Friday, May 24, and there is every indication that it will far surpass previous performances. There is nothing else under canvas that compares with this year's show, which requires three rings, four stages, innumerable riggings and the hippodrome, in order to show all the attractions. One of the big features this year is a new and gorgeous pageant entitled "Aladdin and His Wonderful Lamp," in which nearly 1,400 persons and one thousand animals appear. Their magnificent costumes and trappings rival the dress of the people and animals in the famous "Arabian Nights" stories.

There will be a street parade this year which will start from the circus lot at 10 o'clock in the morning. This year's parade is entirely different from previous parades and will be three miles in length.

Performances will be given afternoon and evening. Besides the innumerable thrilling and educational acts, a company of sixty clowns, a greatly increased menagerie of wild and untamed animals, four herds of elephants several caravans of camels and many recently born baby animals.

Some idea of the size of this year's show may be gained from the fact that the circus in traveling comprises five railroad trains, consisting of eighty-nine railroad cars, and more than seven hundred and fifty horses are used to transfer the wagons from the railroad yards to the show lot.

Cabaret To Help Liberty Bonds

A patriotic dinner and cabaret will be given at the new Hotel Windsor, Poughkeepsie, N. Y., Thursday night, at 9:00 P. M. Henry S. Duncan, the well known New York hotel man, and lessee of the Windsor, has signed the contract for the appearance at the dinner and cabaret of two very high-class Broadway entertainers—Miss Dorothy Jordan, the famous Metropolitan star, who created such a sensation at the opening by her wonderful singing and charming personality, and Mr. Frank Fogarty, Broadway's funniest comedian. Mr. Fogarty has a world-wide reputation as an entertainer and has played all the leading theatres in the country.

The new Windsor orchestra will furnish the music for the dancing which will follow, and between numbers.

A sumptuous repast will be served. This, together with the entertainment should mean a capacity house for this now famous new hostelry. Persons desiring to reserve tables should get in touch with the Hotel Management before the appointed time.

The Difference In Shoes!

THE difference between the sort of Shoes we sell and the "Other Sort" will be perfectly apparent to any one who compares our "Good Shoes" with "Just Shoes!"

Our Better Shoes!

Our Shoes are built up to a standard and Not Down to a Price! The result is that our Shoes are more economical than uncertain Shoes.

They wear so much longer and look so much better than "Bargain Shoes," that they are a Better Investment, Dollar for Dollar, than Any Shoes which sell for less money.

The true test of Shoe value is not the First Cost, but the Final Cost—not what they cost Per Pair, but what they cost Per Year. It is upon this simple test of value that the successful growth of our shoe business is based!

BOYS' SHOES!

Boys have a right to wear out three times as many shoes as their fathers, and most boys work the concession to the limit!

While we will not say that our boys' shoes will not wear out, we will say that we have done everything in our power to make the task of wearing them out as difficult as possible.

FREE CONCERT OF POPULAR MUSIC

At the COLUMBIA SHOP

273 FAIR STREET

Saturday Afternoon, May 4

2.00 TO 4.00 O'CLOCK

HIGHLAND.

Highland, May 1.—Arthur Schamershorn, husband of Mrs. Ethel Wilcox Schamershorn, spent the week-end here at their new home, but had to leave on Monday.

The oyster supper given under auspices of Auxiliary Club and served to the people on Wednesday evening, April 24, was a great success both along social and financial lines, and every one enjoyed it greatly. Miss Grace Scott and Miss Dorothy Church, III were on time and rendered solos and instrumental selections until the close of serving the supper. This seemed quite city like for these restaurants in cities always give very good music and at these suppers that are given it seems the proper thing to do. Nearly \$60 was taken in and when disbursements were gotten away with there was a neat sum for the treasury, which will be needed for paying bills for papering, painting, some new furniture and new carpets.

Miss Bessie DuBois of Maple avenue, spent several days the past week at Beacon with her brother and wife, Mr. and Mrs. George DuBois, and she reports a delightful time.

Mrs. John Graham and daughter of Connecticut, are spending some time here with her parents, Mr. and Mrs. Myron Terpenning, during the illness of the other daughter, Mrs. Jesse Miller, of Poughkeepsie, who is in St. Francis Hospital, with a severe attack appendicitis. Her many friends are hoping for her speedy recovery.

Mrs. Emma Keller of Kingston, spent the week end at the home of Mr. and Mrs. Edward Miller on Maple avenue.

Mrs. J. C. Coddington and little Helen left for their new home in Walton, N. Y., the first of the week. She with her daughter, Helen, spent the week-end at the Bray home. They leave with good wishes of a host of friends.

Mr. and Mrs. J. P. Whitley spent the week-end in Albany with their daughter.

Mr. and Mrs. Frank Van Wart, of Maple avenue, spent last Sunday in Poughkeepsie with relatives.

Arthur Froer, Hasbrouck Van Wageningen and the Hudson boy spent a few days in Albany the past week and had a jolly time.

H. E. Wilcox was a buyer in New York the past week for their store. So look out for displays. He has fine house and porch dresses, splendid material for home dressmaking, great display of high cut and low dress shoes, first class and good wearing hosiery, beautiful waists, underwear and many articles too numerous to mention. We advise all to go and look for themselves and then purchase.

Captain R. H. Decker spent Tuesday in Pleasant Valley.

Mrs. Daniel Kurtz and son, Gordon, were shoppers in Poughkeepsie on Tuesday. Gordon has just recovered from an attack of measles.

Earl Dimsey has had a furlough of a few days and spent it here at the home of Miss Lulu Constable, his bride-to-be.

Rev. George Scofield has been out of town. He spent some time in New Jersey and soon takes a trip west. He seems to be travelling quite a great deal of late.

Mrs. John L. Pratt entertained the Sisterhood, called P. E. O. They had a joyous time so one of the sisters informed us.

The Liberty Coach arrived here Monday noon, but the Ball was left behind. The four horses, owned by Mrs. Vanderbilt, attached to the coach showed by every movement they belonged to an aristocratic family, for their carriage showed aristocracy and how plainly it can be detected in dumb beasts as well as people; these horses have had the best of care, well groomed by the best attendants and have had the honor of going about the country on a world-wide mission. We wished they might be named: Star, Stripe, Uncle Sam and Liberty. There were good addresses and a good amount of money raised. From here they went to Milton. Mr. and Mrs. J. W. Foster accompanied them. From there the coach proceeded to Marlborough and at both places they obtained goodly sums for the noble cause of "Winning the War."

It is now reported that the trolley fare will be raised on May 4th. Now it will cost from here to New Paltz a raise of 5 cents; it seems it cost enough before this and the people we find are finding quite some fault and you cannot blame them.

Friday, May 3rd, "The Man Without a Country," will be given in a movie house for the Red Cross benefit. We hear there will be a matinee at 3 p. m. and evening, 7:15 and 9.

Friday evening in the M. E. Church lecture room there will be a reception to the new pastor and wife, Rev. and Mrs. F. A. Coon. Let every one come out and show their loyalty and may this meeting bring all closer together in the promotion of peace and good will—let us realize that by these social affairs we will be benefited by our united interest.

Mrs. Winans of Poughkeepsie, was a guest of her mother, Mrs. George Main, Sr., of Washington avenue.

Mrs. Myron Terpenning spent several days in Poughkeepsie last week to be near her daughter, Mrs. Jere Miller, who is in St. Francis Hospital in that place for an operation for appendicitis. She is reported as coming on nicely.

Mrs. Coddington and daughter, Helen, left here Monday on the afternoon train for Goshen where she will remain for a few days before going on to Walton, N. Y. Helen has recovered nicely from the measles. Every one here wishes them the best of luck in their new home. They had a host of friends who very greatly regretted their departure.

Wednesday evening the Daughters of America held their regular meeting with fine representation of members. These people are all loyal to their order which means much. It certainly is delightful indeed to know that our united hopes blend in a constant desire to be helpful to each other. Stand together and be actuated by pure motives. There was considerable business transacted and nomination of officers took place, and very soon the election of officers

for the ensuing year will take its usual course and we are positive that all will endeavor to prove worthy of the confidence and trust that has been reposed in all who have been elected to guide the destinies of the order through rough and smooth sailing and let the "Watchword" be "Truth" which is the wisdom, knowledge and intelligence over error and ignorance.

On Friday of this week the Ladies' Auxiliary Club will hold its regular business and social meeting at the home of Mr. and Mrs. Uriah Decker, where she, with her daughters, Mrs. Lovd Platts and Mrs. Elizabeth Decker, will preside as hostesses. These people have a very commodious and beautiful home and it is hoped there will be a very large delegation of members present. Although house cleaning is the prevailing and perplexing work for the present, still break out and swell the crowd on auxiliary day. You certainly will be amply paid. A detailed report will be given to the reporter for next week's issue of The Freeman.

Mrs. Mary D. Malloch has returned home after spending over a week with relatives in New Rochelle and while there visited friends in other places.

Mrs. Dobbs, mother of Harry Dobbs, who has been ill so long, does not seem to improve. She is a great care and sympathy is expressed to Harry and his wife, but

they are very faithful in caring for her.

Oscar Arwater, who has been ill months does not seem to get along very rapidly. One heart goes out in sympathy to these people who were so active a few years ago and now are deprived of all pleasure, it seems very hard.

Henry Hovet, of New York city, and sister of Mrs. J. C. Dedrick, are expected here for a visit with her sister the latter part of the week. The Hovets have many friends here who will gladly welcome them back for the summer months at their summer home on Maple avenue.

AN HONEST GERMAN.

The case of Prince Lichnowsky in 1918 shows, as did the case of Maximilian Harden in 1900, that the love of the truth and the right is not utterly dead in Germany, that not every German is willing to believe that black is white at the bidding of military highwaymen and cutthroats. Harden lay in jail for six months in 1900 because he dared to protest when the Kaiser ordered his soldiers bound for Peking to give no quarter, show no pity, and make the Chinese of all classes remember the Germans for a thousand years as Europeans remembered the Huns. Prince Lichnowsky is now in prison awaiting trial because he has dared to write in his memoirs the truth about the origin of this war and to express the opinion that in the end the Allies must and will win.

Prince Lichnowsky was the German Ambassador at London when the great war began and he seconded the efforts of the British government to call a halt and convene a peace conference of the nations. In his memoirs he shows that all such efforts were vain because in the conference at Potsdam on July 5, nearly a month before the outbreak, the Prussian militarists decided that the long looked for "day" (of the beginning of the German conquest) had come and that the difficulty between Austria and Serbia furnished the desired pretext. He is quoted as saying that the cause of peace was wrecked "not by English perfidy but by the perfidy of our own German policy," and that "the struggle Germany has provoked will end in triumph for her opponents and she will stand alone." It would appear that this honest German does not care what happens to him, for he has deplored of his country and knows that Germany is to become a leper nation to be abominated and shunned by all the world.

The precise reason for not divulging where sick and wounded soldiers from the American Expeditionary Force who have been brought back to this country are being taken is hard to understand. During the week of April 26, the number of sick and wounded who were landed in this country numbered one hundred and thirteen, according to an announcement made on Wednesday by Surgeon General Gorgas. We know, from day to day, the number of casualties in the American Expeditionary Force, and the names and rank are announced of those who have been killed in battle, wounded seriously or slightly, or died of disease or wounds. We know, too, that sick and wounded will continue to be brought to this country to recuperate. Then why suppress the fact of where they will recuperate? The information possesses no military value and we have had enough information of where the Government intended to erect base hospitals to know that the intention has been to exercise the utmost care for the sick and wounded, not only abroad but also when they are returned to the United States. The good intentions have been and are being carried out, and such being the case, why not let the people know instead of following a policy of useless suppression which leads to justifiably faultfinding which in turn leads to unanswerable criticism of proper suppression? The only conceivable reason for suppressing facts of this character is the fear that enemy sympathizers in this country, following the German policy of frightfulness practiced abroad, would endeavor to injure still more by whatever means they could command the sick and injured who return home. Inhuman atrocities appeal to the German mind that still seeks the elevation of Kultur in all lands. The surest preventive of such atrocities here is the severe punishment of those already guilty of heinous crimes of other kinds, but in such a course we seem extremely weak.

A local correspondent of the New York Sun writes to complain of the "tango pirates" who infest Broadway restaurants, particularly at the tea hour, and who fascinate and prey upon young women. "I have a relative, a young married woman," she writes, "who is completely fascinated with one of these rascals, and I have been told that there are a great many others who are getting women's money away from them." In reply the Sun's editor confesses he does not know what is to be done to cure a woman of such an infatuation, adding: "Probably the worst thing to do is to argue with the victim." The Sun suggests no method of dealing with the "tango pirates" themselves, but in these days of industrious draft officers there ought to be a way. What these "fascinating" young parasites need is to have a gun thrust into their hands and be made to drill from sunrise to sunset. That would leave them neither the time nor the inclination to "tango" the money out of the purses of foolish young women.

LITTLE LAUGHS.

"You should have seen the rosy flush on her cheek." "You should have seen the straight one in my hand."—Baltimore American.

Impressionist—"I paint things as I see them." Critic—"Then you shouldn't paint while you are seeing things like that."—Boston Transcript.

"You must be very proud of your son, Mr. Scaddis. What is he doing?" "Nothing, but he does it so well that you can't help admiring him."—Life.

"Would you seriously object to lending me \$50 for a few days?" "Oh, no." "Really? That's sounds encouraging." "You misunderstand me. I meant that I wouldn't entertain such a proposal seriously."—Birmingham Age-Herald.

How His Honor Felt.

In a western court not long ago the judge, of Celtic extraction, addressed a frequently convicted prisoner in these terms:

"Are you aware that for these repeated breaches of the law it is in my power to sentence you to a term of servitude far exceeding your natural life, and that, furthermore, I am very much inclined to do it?"—Harper's Magazine.

The Age of Reason.

Jimmy giggled when the teacher read the story of the Roman who swam across the Tiber three times before breakfast.

"You do not doubt that a trained swimmer could do that, do you, Jimmy?" the teacher demanded.

"No, ma'am," answered Jimmy. "But I wondered why he didn't make it four times and get back to the side his clothes were on."—Exchange.

Needed More Pull.

McCole, a new recruit, was sent out for target practice on the ranges. He did fairly well at 300 yards, for a new one, but at 800 yards he generally managed to drop his bullets short. The sergeant patiently explained the raising of the sights, but McCole still fell short.

"Why can't you shoot higher?" demanded the sergeant. "What's the trouble?"

"I've found out what the trouble is, sir," answered the recruit. "I'm afraid I haven't been pulling the trigger hard enough."—New York Evening Post.

One of the latest stories in regard to the "gentleman ranker" in the British army is reported here. An officer who superintended the receipt of a large and varied stock of stores told the need of a clerk, and told the sergeant major to hunt up one from among the men. The sergeant major could not find a man who "pleaded guilty" to being a clerk, but he eventually singled out a sober-looking private and took him before the officer.

"Are you a clerk?" demanded the captain.

"No, sir," replied the man.

"Do you know anything about figures?" asked the captain, sourly.

"I can do a bit," replied the man modestly.

"A bit," snarled the officer. "Is this the best man you can find?" said he to the sergeant major.

"Yes, sir," said that worthy.

"Well, growled the captain. "I suppose I'll have to put up with him!"

Turning to the private he snapped, "What were you in civilian life?"

"Professor of mathematics at 'College, sir!" was the reply.

reply the Sun's editor confesses he does not know what is to be done to cure a woman of such an infatuation, adding: "Probably the worst thing to do is to argue with the victim." The Sun suggests no method of dealing with the "tango pirates" themselves, but in these days of industrious draft officers there ought to be a way. What these "fascinating" young parasites need is to have a gun thrust into their hands and be made to drill from sunrise to sunset. That would leave them neither the time nor the inclination to "tango" the money out of the purses of foolish young women.

The adept at the practical joke, being himself nervously insensate and afflicted with a perverted idea of humor, is almost invariably the person who cannot, as we say, "take his own medicine," turning sulky and sullen under reprisals in kind, and belings with the people who are not desirable as friends. Even acquaintance is often a trial.—Detroit Free Press.

FIXING BLAME FOR STEAMER DISASTER

By Telegram to The Freeman.
New York, May 2.—With a rigid investigation already under way into the sinking of the Savannah line steamer City of Athens by a French cruiser off the Delaware Capes early Wednesday morning, the death toll today remained sixty-seven, among them two women and a child.

Officials of the Savannah line are conducting an inquiry into a report that the life saving apparatus on the City of Athens was defective. The cause of one of the lifeboats capsizing and spilling the occupants into cold water is said to have been a rope breaking.
Altogether there were 135 souls aboard the City of Athens. Sixty-nine were passengers. The crew of the steamer numbered sixty-six. Among the passengers were women and children and twenty-four marine recruits with twenty French sailors enroute to southern naval training camps. Twelve of the marines have been accounted for and seventeen French sailors are known to have been drowned.

The collision occurred while both ships were proceeding at a fair rate of speed. A fog which was so thick that not a glimmer of either ship's lights could be seen by the other, was directly responsible for the crash.

Numerous cases of heroism were reported here today after the survivors had been landed. F. J. Doherty and Z. W. Vollmer, wireless operators, stuck to their posts on the Athens until the ship went down. They refused to obey commands to leave the ship. Vollmer was picked up but Doherty was lost.

DRASTIC ACTION TO CLEAN UP MEASLES

Health Board Established Quarantine for Three Weeks for Children in Houses Where Cases Occur, or One Week for Individual Cases.

The board of health held a special meeting Wednesday to take action in reference to the epidemic of measles in this city.

There have been one hundred and five cases, of which thirty have been reported in the last three days. Besides the members of the health board, the meeting was attended by Dr. Laidlaw, state sanitary supervisor of this district; Superintendent of Schools M. J. Michael; Dr. Henry Van Hovenberg, school physician, and Miss Decker, school nurse.

The board decided that drastic action had to be taken as parents were not obeying the quarantine. The board determined that all children in houses in which there is a case of measles be quarantined for three weeks, or that each child reported with the measles be quarantined for one week after being reported to the board. The distinction is made because the child can communicate the disease for some time before the eruptions appear, but there is little chance of it being communicated afterward except for two or three days. This quarantine will apply to all children in one or more families in one house where a case occurs and where a common hall is used.

The board authorized the health officer and sanitary committee to take the necessary steps to open up the contagious hospital and remove to the hospital all cases where the quarantine was being violated. This action was determined to be necessary because of the false idea that the disease is not serious. There were 892 deaths from measles in New York state last year and only 241 deaths from scarlet fever, besides many deaths from other diseases or complications, which resulted from the measles. The disease is listed as a serious one, and a mild case may give rise to a serious one.

The board wants parents to eliminate the idea that their child should have the measles to "be over it." It appeared from the discussion that parents are not careful in having its spread minimized, and that it was necessary to protect other children by enforcing the quarantine by removal of cases to the contagious hospital if necessary.

WHY SUGAR MUST BE SAVED.

Every Spoonful Helps to Make Up the Shortage.

By Telegram to The Freeman.

Washington, D. C., May 2.—If any man has failed to see the reason why he should cut his plentiful apportionment of two spoonfuls of sugar to the one of war time, he can find it in a recent publication of the United States Department of Agriculture explaining the world-wide shortage—especially the shortage among the Allies—in the supply of sweets.

Not only has the supply of sugar in some parts of the United States been short, but there has been an actual shortage of more than 2,000,000 tons annually in the world since the war began, and the shortage is likely to continue, the publication says, primarily because of the destruction of a large number of sugar mills and the devastation of a considerable area of sugar-producing lands in Europe.

Prior to the war practically all the beet sugar of the United Kingdom and Italy, exported to the United States, was produced in the United Kingdom and Italy. In 1918 it is estimated that the Allies must import a minimum of 1,200,000 tons of sugar.

Formerly the United Kingdom and France depended to a considerable extent upon Germany, Austria-Hungary, Belgium and Russia for sugar. These sources were shut off by the war. The United Kingdom alone thus lost the source of more than half of her normal supply of sugar and has turned to new as well as other old sources for her supply. The changes thus brought about have been largely a diversion of the product of Mauritius to the United Kingdom instead of to India, and an expansion of the imports of unrefined sugar from Cuba, the Philippines and Peru. For refined sugar she drew upon the United States and Java. However, the Allies can not turn to such exporting countries as Java and Mauritius without being forced to go a much longer distance and over more perilous route than across Atlantic. If the Allies are compelled to go to these countries, it will require an extra amount of shipping which is needed for transportation of American soldiers and supplies to France and England.

Russia's exports practically ceased in 1914, and she is now reported as somewhat short of sugar. Italy's crop decreased last year and her imports have increased largely since the war began. Italy's normal consumption, however, is small and her deficit is not serious.

BAKER ASKS FOR
UNLIMITED MEN

By Telegram to The Freeman.
Washington, May 2.—Secretary of War Baker, appearing before the house military affairs committee this afternoon, asked blanket authority to "raise any number of men that the facilities for training and transportation will permit."

Upon emerging from the committee room, Secretary Baker dictated the following statement:
"The war department's program was presented to the committee this morning. It involves expediting the transportation of men and increasing the army as rapidly as our ability to equip and transport can be foreseen."

"The secretary of war declined to discuss numbers for the double reason that any number implies a limit, and the only possible limit is our ability to equip and train and transport, which is constantly on the increase."

"The details of estimates for the regular appropriations of 1918-19 will be gone over with the committee tomorrow morning at ten thirty o'clock."

"These estimates when approved by the committee and enacted by congress will, of course, be supplemented as facilities for shipping and training become apparent."

Mr. Baker stated that he took the position that the war department should have authority to call men from class 1 in the draft without reference to credits.

FINANCIAL AND
COMMERCIAL

By Telegram to The Freeman.
New York, May 2.—The leading industrialists were in vigorous demand at the opening of the stock market today, with most interest attached to the trading in Steel Common. There was another wide opening in this stock, initial sales being at 97 1/2 to 97 3/4, a gain of 1/4, and during the first fifteen minutes dealings between these prices continued on a large scale, with one sale at 96 3/4. Republic Iron and Steel was the strongest of the minor steel industrialists, continued accumulation putting its price up 1/4 to 88 1/4. Fractional gains were made in Baldwin, Crucible and Bethlehem B. Mexican Petroleum was active, advancing 1/4 to 95. Distillers Securities opened up 1/2 at 51 1/4, but yielded to 50 1/4 in the next sale. International Paper, American Tel. and Tel., and Corn Products showed fractional losses in the early trading. American Can advanced 1/4 to 44 1/4. Marine preferred opened up 1/4 at 85 1/4, which was followed by a reaction to 84 1/4. Bonds continued in good demand, the 4's selling at 96 1/2, while the 3 1/2's were traded in at 99 1/2.

Nearly all the speculative interest on the floor was concentrated in the steel industrialists because of the favorable reports of the situation published in the trade journals. Steel closed in the trade journals. Steel closed in the trade journals. Steel closed in the trade journals.

The market continued strong; Canadian Pacific moved up nearly 3 points to 140 1/4 and St. Paul Preferred sold up to 71 1/4, a gain of 1/4, while the Common moved up to 40 1/4. New Haven sold up to 39 1/4. Steel Common sold up to 98 and then reacted to 97 1/4.

The market closed strong today; government bonds unchanged; railway and other bonds strong.

WOODSTOCK FIREMEN.

Dr. Downer Writes of Their Excellent Service.

Woodstock, N. Y., May 1, 1918.

To the Editor of The Freeman:

Sir:

The account of the fire in Woodstock last Sunday which you printed in your paper, no mention was made of the Woodstock firemen, and the heroic work they did in preventing the fire from entirely destroying a house of its size, and especially so when the flames had such a start when the fire was discovered. Every one agreed that their work would compare favorably with any paid department. The firemen lacked nothing in bravery, skill and perseverance and our old town is glad to know they have such an efficient department to protect their lives and property. The Junior Order of Mechanics, who were attending services in the Methodist Church nearby, also lent valiant aid. The artists, too, acted as if they were veterans in fact everyone, especially the women, who disregarded their Sunday apparel, carried water and helped save property from the building, are especially to be praised. Mr. Editor, may I ask you to lend the columns of your paper to permit me to thank the public for their praise and sacrifice in my behalf. Had it not been for them our loss would have indeed been severe. Mrs. Downer and the members of my family join me in asking the public to accept our thanks for their acts and expressions of kindness.

On the 26th of April William T. Goetchius, aged 68 years, died at the home of his daughter and husband, Mr. and Mrs. Ward Crowell, at Garrettsville. Mr. Goetchius with his wife (since deceased), and two daughters came from New York city to Milton a number of years ago, purchasing a beautiful place south of Milton, where he lived until a year or so ago. Mr. Goetchius was a successful carpenter, retiring from the work when coming to Milton. The funeral was held at the home of his youngest daughter and husband, Mr. and Mrs. H. V. Briscoe, on Monday afternoon, the Rev. Mr. Fuller officiating. Interment at Kingston on Tuesday. The survivors are his two daughters, Mrs. Ward Crowell and Mrs. H. V. Briscoe, and two grandchildren, Miss Helen and Ralph Crowell, who mourn a loving and devoted father.

The reception of the Rev. and Mrs. Fuller at the M. E. parsonage on Wednesday evening was a pleasant one and very well attended. Mrs. A. E. Bell of the Friends' Church, Mrs. Ellen Anderson of the Episcopal Church, Mrs. Edward Young of the Presbyterian Church, welcomed the new pastor and his wife to Milton in words of good fellowship and participating much good work this year. Both the Rev. and Mrs. Fuller responded heartily. Delicious refreshments were served in the dining room and a remarkable happy evening was spent.

Don't forget the W. C. T. U. entertainment at the M. E. Church. This is an exceptionally fine program. Admission 25 cents.

"Each Stitch is a Thought of You" on a new Victor Record

A tender little song of soldier sentiment, effectively sung by Henry Burr, which pictures a tired, careworn, but loving little mother knitting comforts for her boy "over there."

"A Little Bit of Sunshine" is another reminder of the boys abroad and how to cheer them on their way, presented by Charles Hart with the Shannon Four. Both on one record.

Victor double-face Record, 18453 Ten inch, 75c.

The "Rookies" choirmaster sings "Send Me a Curl"

Geoffrey O'Hara, musical director of one of Uncle Sam's Training Camps, knows what soldiers want. He shows it in this song he composed. An unusually attractive march song that goes with an irresistible swing.

Louis James with the Shannon Four sings a victory song in anticipation—

"All Aboard for Home Sweet Home." And it has some delightfully blended harmonies.

JOHN ST. OPEN EVENINGS.

Victor

I USED to hang my dainty new curtains with a sigh, dreading from the beginning the ominous day when they would have to be spoiled in the laundry.

Now I never give them a thought—I have found how easy it is to keep them always fresh and new.

I wash them the modern way in pure Lux suds, and with no rubbing. The dainty Lux flakes dissolve instantly in hot water and whip up into rich, pure suds. I soapse the sheer, lacey curtains in the foamy lather—gently squeeze the cleansing Lux suds through them again and again, then take them out so clean and fresh, with not a thread broken.

With Lux there is none of that old-time rubbing to break and tear the sheer material—there

are no particles of undissolved soap to cling to the delicate threads through all the rinsings, and coarse and yellow them.

Try Lux for your finest curtains—for your fragile laces and finest table linen. See for yourself how simple it is to keep them white and pure. Your grocer, druggist or department store has Lux. Lever Bros. Co., Cambridge, Mass.

How to wash fine curtains

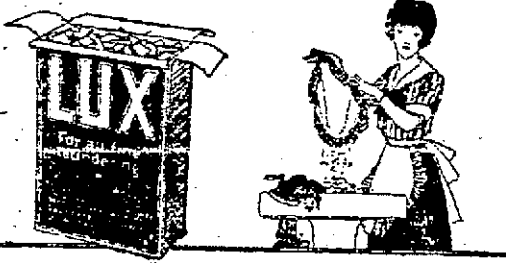

Shake the dust carefully out of the curtains, then let them soak in clear, cold water for an hour to loosen the dirt. Use a tablespoonful of Lux to a gallon of water. Dissolve in boiling or very hot water, and whisk into a thick lather. Put the curtains in and soak thoroughly. Squeeze the suds through the fabric. Do not rub. Rinse three times in clear, hot water, and dry in the sun.

Silk and Colored Curtains should not be soaked. Wring cold water, then wash quickly in lukewarm suds, rinse three times in clear, lukewarm water, and dry in the shade.

Use Lux for anything that pure water alone won't injure

CHINESE SING AT ARMY Y. M. C. A.

Wise Men From the East Who Carry Umbrellas in Military Service—The Photograph Record That Should be Blank.

At the Same Place, Somewhere in France, April 8.—Today it is quite cool again for a change. The weather is still very changeable, rain one minute and clear the next. There are a bunch of Chinese coolies here and they all are wise men and carry umbrellas. In fact I never go anywhere myself now, even though it be a cloudless day, without my raincoat. It seems to be the rain is just getting here. And it rains with so little effort. For 11 days we have not been without several showers a day. But still it has been sunny France, for when it rains the sun sometimes shines. I went out the other morning at 6:45 and saw a perfect rainbow in the west.

I am still on the same old job, logging along to town about every day. Now there is a new order in effect in regard to liberty. Any man who has a clean record, no A. W. O. L., or other blot on his record, has a permanent pass good for any time when he is off duty, so we can go out of camp or to town when work is done. Of course, we must be back at 10 o'clock. Formerly it was 10:30 on Sunday afternoon.

As usual, Jacob and I went to town and had a very fine time. We went to the rink in the afternoon and "Jake" met his friend and we skated and learned French. She can speak English very well and is studying it. She has a brother, a captain in the French army and a second, a lieutenant, both now at the front. Her home is not where she now is, but was up farther until she moved from the city on account of danger. Ritter and I met the other two friends. I skated a bit and then we walked home with them and then ate. We are going easy now, no more big feasts until next pay day, so ate a 2 franc meal. We both enjoyed the skating so well we returned at night. Our friends, as is the custom here among the better class of people, do not go out in the evening unless accompanied by their parents.

Well I was skating about three minutes when off came a skate and I stopped very suddenly. It was my only slip.

You say you have a very noisy Victoria record? What is supposed to be the departure of a transport for France. Well, let me tell you there is no way a photograph can present that, except by a blank record. You go aboard a ship, or at least I did, you hang around and cuss the delay all day and then at night a half dozen wheezing, snorting tugs hook on while you are in dreamland and nose you out of your pier and you are "outward bound." Next morning you awake to the smooth rhythmic sound of turning propellers and dress hastily, dash up on deck (if the guard will let you) and look out expecting to get a farewell look at the fast fading U. S. but find only water. You feel like you are having a bad dream, then later feel as if you are on a short sea excursion and may see the harbor again any minute. But you don't. You don't wake up and first thing you know you become aware you are not on pleasure bound, and in a few days you go about with life belt strapped on, canteen full of water and then comes the order to sleep with your clothes on, and you realize it is not a dream and you are awake and in the U-boat zone.

Lights are always out and there is no noise above decks. At sundown smoking on deck is taboo and then you see the mosquito fleet coming to meet you and that is one time nothing in the world can keep back a crew.

But the big noise comes when you see port, safe and sound. I will never forget the feeling when we sighted French shores after sailing the Lord only knows where for three weeks. For we knew land was near when aeroplanes could come to meet us.

There won't be any silence when the boys come home and it will take a good, noisy record to produce their arrival in America.

I have heard from John Bear and also Joe Burgraf, who has been called. Received a letter from Lieut. Saunders, Dr. Brewer and a package of "sweets" from Miss Liebenau. Your packages have not yet arrived, neither has Aaron Cohen's.

The other night there had a novelty program at the "Y." Several Frenchmen sang some Chinese sang, also Italians and others. I think the Chinese singing is about the best, ever, a sort of combination squeal and giggle.

Please send my pocket compass—the little army one. It saw service at Plattsburg, and why not in France.

Something is going on outside. I hear clattering guns down the road. Either a bunch of "come-overs" just arrived from home, or some more going to the front. I hope it is arrivals, for I like to see business come our way and we expect five times as many men here as now very soon. We might get lonesome soon, with all the departures for the front and no new arrivals.

CO-OPERATE WITH THE PRESIDENT

He Has Bought Many Bonds and Will Buy Another on the Installment Plan—Four Minute Men to Speak in the Local Theaters.

Kingston's Four Minute Men will speak in the local theaters this evening and Friday evening in the interests of the Third Liberty Loan, and will tell how President Wilson has bought Liberty Bonds to his limit, and offers to buy another one on the installment plan.

This evening's schedule is as follows:

Kingston Opera House—7:15 o'clock, Judge A. T. Clearwater; 9, Hon. Howard Chipp.

Orpheum Theater—7:15 o'clock, Judge John G. Van Etten; 9, Attorney Harry H. Flemming.

Auditorium Theater—7:15 o'clock, Judge James Jenkins; 9, R. E. Leighton.

Reception, Daughters of Isabella, K. of C. Auditorium—9 o'clock, John E. Mahar.

Friday Evening.

The schedule for Friday evening is as follows:

Kingston Opera House—7:15 o'clock, Senator Charles W. Walton; 9, Attorney Alfred D. Van Buren.

Orpheum Theater—7:15 o'clock, Judge Amos Van Etten; 9, Attorney John M. Cashin.

Auditorium Theater—7:15, Thomas J. Comerford; 9, County Attorney John W. Eckert.

Junior Dance, Kingston High School—9 o'clock, Attorney D. G. Atkins.

The following telegram was received by Mr. Comerford:

Thos. J. Comerford, Chairman Four Minute Men, Kingston.

Notify all speakers to make this proposition to all audiences on Thursday and Friday: President Wilson realizing the very vital necessity of increasing the number and size of individual subscriptions to the Third Liberty Loan, says that while he has already bought to his limit, he offers to buy one more fifty dollar bond on the installment plan at the rate of seventeen cents a day and asks how many men and women in all American audiences will match him for new or additional subscriptions.

This offer is to be made simultaneously just as if he were present. Have all speakers pound this proposition hard at every meeting on Thursday and Friday and to secure every possible subscription.

(Signed) BLAIR.

Edward Coykendall, chairman of the local Liberty Loan Committee, stated when he heard about the telegram, that Kingston ought to do more than go "over the top."

Mr. Coykendall said that we ought to bend every effort to secure every possible subscription. We have a duty to perform and we must do our share here in Kingston.

Question for Nature Lovers.

Why does the oak, sturdiest of trees, bear but a small acorn, while the tender pumpkin vine bears such a weighty fruit? That the latter runs along the ground and the fruit is thereby assured of support is not true for the vine will climb whenever and wherever opportunity is given and will retain its hanging fruits to maturity, even though the latter weigh 100 pounds each.

HE HELPED POLICE LOCATE HIS WIFE

Raid on Alleged Disorderly House in Poughkeepsie Followed—Manusio Then Furnished Her Bail and Withdrew Larceny Charge He Had Made.

The matrimonial adventures of Mr. and Mrs. Frank Manusio of Chambers street would furnish a good scenario for the movies, and the latest reel was cast in Poughkeepsie when Manusio found his wife in an alleged disorderly house.

In order that the scenario may be properly placed before the audience it is necessary to go back a few weeks. At that time Mrs. Manusio was cast in the leading role. She was formerly Miss Jennie Eldridge of Edenville.

The time was shortly after supper and the first scene shows Officer James V. Connelly patrolling his beat downtown. At this interesting stage of the scene Mr. Manusio comes running up and informed Officer Connelly that his wife had swallowed poison and he had left her lying on the floor of their home.

Officer Connelly and Manusio set off in a hurry for the Manusio domicile. When they arrive they find Mrs. Manusio on the front porch talking with the colored woman who resides upstairs.

When she was questioned by Officer Connelly she informed him that the reason she had swallowed the poison, which she had later disgorged, was due to the fact that her husband accused her of drinking and that made her tired of life.

Still later the next scene shows police headquarters and the appearance of Mr. Manusio, who called to get out a warrant for the arrest of his wife. He claimed she had taken his blue serge suit and a watch and then left.

The scene then shifts to Poughkeepsie when Manusio appeared at police headquarters there and stated he had located his wife at No. 29 Main street, that city.

Chief McCabe and Detective Sholly decided to raid the place. This was Tuesday night, and as a result they placed Frances Prate, 24 years old, under arrest as a disorderly person in that she conducted a house frequented by disorderly persons, and Mrs. Manusio, who was found in the house, was held as a material witness.

This led to Mrs. Manusio being required to furnish cash bail for her appearance in court when the case comes up for a hearing next week.

She did not have the required cash and rather than have her wife languish in jail, her husband put up \$170 cash bail for his wife's appearance and then both left for Kingston.

The last scene shows Mr. Manusio at police headquarters this morning where he informed Sergeant Hanley that he wanted to withdraw the charge he had made against his wife.

According to the Poughkeepsie Eagle-News Mrs. Manusio at the station house said she had gone to Poughkeepsie on Thursday of last week and stayed at the home of her aunt. A few days later she hired out in the restaurant conducted by the Prate woman. When questioned further she told of many disorderly acts which were brought to her attention by the Prate woman.

WALKER VALLEY.

Walker Valley, May 2.—On Monday evening, the Liberty Loan Committee of Pine Bush, held a rally in the M. E. Church. With the exception of last Decoration Day it was about as large an assemblage as ever congregated in the church. Opening prayer by the Rev. James Dickerson of Pine Bush. L. J. Davis of Pine Bush presided. Selections by John's orchestra of Walden. Mr. Murray of Ellenville gave an eloquent address, showing the necessity of buying a bond. Solo, "When the Boys Come Home," by Mrs. Charles Bennett, which was highly applauded. For an encore she sang, "Keep the Home Fires Burning." Mrs. Bennett has a beautiful trained voice. M. Hazelton, president of Federal Bank, N. Y., was then introduced, telling the need of Liberty Loan and conservation. The Boy Scouts marched on platform. After a speech all joined in singing "The Star Spangled Banner." Our beloved pastor, the Rev. F. F. Robinson, gave a talk on what he had seen while in France, being a representative of the Y. M. C. A. in France for a while, after which it was announced the representative of the Red Cross would take up a collection, which was generously responded to, \$17.71 being collected. Then our fellow townsman, Montgomery Schuyler, gave an address with questions, which no one could seem to answer, as no one could seem to have sacrificed one thing to help win the war. We are the chairman had worked hard to have such a successful meeting, and it is greatly appreciated by Walker Valley. It would be hard to say which speaker was best as all were eloquent even to our young Boy Scout, and the selections by the orchestra were many and beautiful.

FIRES HOME THEN SHOOT HIMSELF

Francisco DeCicco, 74 Years Old, of East Kingston, Mentally Unbalanced, Suicided Wednesday After Setting His House on Fire.

Francisco DeCicco, 74 years old, who resided alone in a two room house at East Kingston, set fire to his home Wednesday afternoon and then going out behind an ice house about thirty feet away from his home he shot himself through the heart with a .22 calibre revolver. Death was instantaneous.

The aged man has been mentally unbalanced for some time. His wife died about a year and a half ago, and last fall his two grandchildren, Rose and Anna DeCicco, were killed when the automobile they were riding in was struck by a West Shore train on the Flatbush avenue crossing. The deaths made him despondent.

That afternoon smoke was seen coming from the little two-room house where the aged man resided alone and the front door was forced open by neighbors. While some thought the fire others started a search for Mr. DeCicco and found him dead on the ground behind the ice house. The fire was extinguished before it had done much damage. A few articles in one room were burned and the other room was damaged by smoke.

Coroner E. A. Kelly was notified and that evening the body of the dead man was removed to the undertaking parlors of N. D. J. Murphy. The funeral arrangements will be announced later.

Mr. DeCicco was a member of St. Colman's Church in East Kingston, and a member of the St. Liberal Society. He is survived by four sons, John, James, Carmine and Michael; one daughter, Mrs. James Nardi, all of East Kingston, and one sister, Mrs. Carmine Pugliese of Chicago.

The dead man was a former worker on the brickyards, but retired about seventeen years ago.

At the reorganization of the M. E. Sunday school last Thursday evening, the following officers were elected: Supt., Arthur Magee; asst. supt., Ernest Van Stoenburgh; secretary, Mrs. William Moon; treasurer, Mrs. John Hallenbeck; librarian, Miss Emma Post; missionary supt., Mrs. Arthur Magee; organist, Mrs. William Humphrey; assistant organist, Mrs. John Craft.

Might Have Changed History. Joseph's correct interpretation of Pharaoh's dream of the fat and the lean kine, and the full and withered ears, saved a mighty nation from hunger. Had Caesar but heeded Calpurnia's dream and not gone out the eventful day, Rome might have still been what she was. If Pilate had paid attention to his wife's dream, the Scriptures would give us a different story about the Savior.

MORE CORN COMBINATIONS.

Corn flour makes very palatable griddle cakes using the usual proportions with an egg or two as needed.

Steamed Barley and Cornmeal Pudding.—Take one cupful each of molasses, sour milk, raisins and barley. Three-fourths of a cupful of cornmeal, one-fourth of a teaspoonful of salt, one egg, one teaspoonful of soda dissolved in a spoonful of water. Beat the egg add the molasses, milk, and soda. Sift corn meal and barley together and combine with the first mixture. Add the raisins chopped and pour into well greased baking powder tins. Steam two hours. Serve with any good sauce.

Popcorn Balls.—Use perfect kernels removing all the hard ones. Prepare a syrup by boiling two cupfuls of corn syrup and a tablespoonful of sweet fat until it thickens. Pour slowly over the corn stirring to get it well mixed. Chill the hands and form the balls quickly before the syrup gets too hard.

Chocolate Pudding.—Mix four tablespoonfuls of cornstarch with a half cupful of sugar and a half teaspoonful of salt. Combine with a little cold milk, to which a square of grated chocolate has been added, add a pint of milk, and cook until thick, then add a half cupful each of raisins and nuts with a teaspoonful of vanilla. Mold and chill and serve with cream or top milk.

Wisconsin Scramble.—Take one cupful of headcheese, pork scraps left from trying out lard or one cupful of headcheese, two teaspoonfuls of salt, a teaspoonful of powdered sage. Cook the meat two hours, then stir in the meat and seasonings, then turn into a mold wet with cold water. Slice when cold, and fry.

Corn Flour Cake.—Scald one and one-fourth cupfuls of milk, and two cupfuls of corn flour, slowly, stirring constantly. Cream a third of a cupful of fat with three-fourths of a cupful of sugar, add two well beaten eggs, then the corn flour and milk mixture. Beat well, add three teaspoonfuls of baking powder, beat again and put into layer tins. Use fig filling.

Knocked Down by Army Truck—Home on Leave of Absence—Was Stationed at Camp Hancock in Georgia.

Lieutenant Dawe is unable to walk a short distance with the aid of crutches. He is a son of Mr. and Mrs. Richard Dawe of No. 11 Lawrence street.

Lieutenant Dawe will be unable to use his foot for a month or six weeks. Army life agrees with him. When he entered the army he weighed 165 pounds and now, after the trials at 180 pounds and in first-class physical condition, aside from his injured foot, which while it is painful is not considered serious.

Lieutenant Dawe was a member of the first officers' camp at Madison Barracks and was recommended for a first lieutenant. When he received his commission he was sent to Camp Dix and later to Camp Hancock where he was assigned to the 11th Infantry.

FATE OF DEAD AND WOUNDED FLAGS

Mrs. Margaret Anderson, patriotic instructor of the Ladies' Auxiliary of the Sons of Veterans, Tappan Camp, No. 100, has asked the cooperation of the Boy Scouts of Kingston in the collection of the dead and wounded flags in this city. There are at present many flags—new and faded, dirty or ragged to be fit to be hung to the breezes as the emblem of our country. Yet it would be even more undesirable to have these flags come to any ignominious end as they sometimes do. Mrs. Anderson has the authorization of the government to collect all such flags and will later instruct her just what disposition to make of them. It is expected that they will be held until after the war and then used for decorating purposes, during parades of returned soldiers and sailors, etc., as being survivors of the greatest war in history.

At present all persons owning any such worn or unfit flags, are asked to notify Scout Headquarters, telephone 1880, or any of the Boy Scouts and they will call for the flag, which after being collected at Scout Headquarters will be turned over to Mrs. Anderson, who will make such final disposition of them as she is authorized to do by the government.

If your flag has done duty until it has given up its life for its country, see to it that in this way it receives final honors befitting such service.

Miss Margaret Murphy of 775 Broadway is president of one class and Miss M. Duppold of 41 Broadway is president of the other class. Announcement will be made as soon as word has been received from headquarters, as to the evenings when these classes will be held. As so many members of these classes wish to further take up the course in First Aid work, the class already waiting to begin this instruction will not be asked to wait for them to finish this course, but a First Aid class will be promptly formed. The classes in Elementary Hygiene and Home Nursing will be held at the Kingston City Hospital.

BARNUM & BAILEY SHOW HERE MAY 24.

Five Railroad Trains Required to Transport "Greatest Show on Earth," Which Has Many New Features and Attractions.

Advertising Car No. 1 of the Barnum & Bailey Circus is in town and the preliminary advertising campaign has begun. The advertising car is in charge of W. C. St. Clair, who is accompanied by a corps of thirty men. W. L. Wilkin, the first of the press agents, who looks after newspaper advertising, arrived in town at the same time and an aggressive advertising campaign will be carried on.

The "Greatest Show on Earth" will exhibit here on Friday, May 24, and there is every indication that it will far surpass previous performances. There is nothing else under canvas that compares with this year's show, which requires three rings, four stages, innumerable riggings and the hippodrome, in order to show all the attractions.

One of the big features this year is a new and gorgeous pageant entitled "Aladdin and His Wonderful Lamp," in which nearly 1,400 persons and one thousand animals appear. Their magnificent costumes and trappings rival the dress of the people and animals in the famous "Arabian Nights" stories.

There will be a street parade this year which will start from the circus lot at 10 o'clock in the morning. This year's parade is entirely different from previous parades and will be three miles in length.

Performances will be given afternoon and evening. Besides the innumerable thrilling and educational acts, a company of sixty clowns, a greatly increased menagerie of wild and untamed animals, four herds of elephants several caravans of camels and many recently born baby animals.

Some idea of the size of this year's show may be gained from the fact that the circus in traveling comprises five railroad trains, consisting of eighty-nine railroad cars and more than seven hundred and fifty horses are used to transfer the wagons from the railroad yards to the show lot.

The Difference In Shoes!

THE difference between the sort of Shoes we sell and the "Other Sort" will be perfectly apparent to any one who compares our "Good Shoes" with "Just Shoes!"

Our Better Shoes!

Our Shoes are built up to a standard and Not Down to a Price! The result is that our Shoes are more economical than uncertain Shoes.

They wear so much longer and look so much better than "Bargain Shoes," that they are a Better Investment, Dollar for Dollar, than Any Shoes which sell for less money.

The true test of Shoe value is not the First Cost, but the Final Cost—not what they cost Per Pair, but what they cost Per Year. It is upon this simple test of value that the successful growth of our shoe business is based!

BOYS' SHOES!

Boys have a right to wear out three times as many shoes as their fathers, and most boys work the concession to the limit!

While we will not say that our boys' shoes will not wear out, we will say that we have done everything in our power to make the task of wearing them out as difficult as possible.

MISSES' SHOES!

Saturday Afternoon, May 4

Highland.

Highland, May 1.—Arthur Schamhorn, husband of Mrs. Ethel Wilcox Schamhorn, spent the week-end here at their new home, but had to leave on Monday.

The oyster supper given under auspices of Auxiliary Club and served to the people on Wednesday evening, April 24, was a great success both along social and financial lines, and every one enjoyed it greatly. Miss Grace Scott and Miss Dorothy Churchill were on time and rendered solos and instrumental selections until the close of serving the supper. This seemed quite like for these restaurants in cities always give very good music and at these suppers that are given it seems the proper thing to do. Nearly \$60 was taken in and when disbursements were gotten away with, there was a neat sum for the treasury, which will be needed for paying bills for papering, painting, some new furniture and new carpets.

Miss Bessie DuBois of Maple avenue, spent several days the past week at Beacon with her brother and wife, Mr. and Mrs. George DuBois, and she reports a delightful time.

Mrs. John Graham and daughter of Connecticut, are spending some time here with her parents, Mr. and Mrs. Myron Terpenning, during the illness of the other daughter, Mrs. Jesse Miller, of Poughkeepsie, who is in St. Francis Hospital, with a severe attack appendicitis. Her many friends are hoping for her speedy recovery.

Mrs. Emma Keller of Kingston, spent the week-end at the home of Mr. and Mrs. Edward Miller on Maple avenue.

Mrs. J. C. Coddington and little Helen left for their new home in Walton, N. Y., the first of the week. She with her daughter, Helen, spent the week-end at the Gray home. They leave with good wishes of a host of friends.

Mr. and Mrs. J. P. Whitley spent the week-end in Albany with their daughter.

Mr. and Mrs. Frank Van Wart of Maple avenue, spent last Sunday in Poughkeepsie with relatives.

Arthur Freer, Hasbrouck Van Wagenen and the Hudson boy spent a few days in Albany the past week and had a jolly time.

H. E. Wilcox was a buyer in New York the past week for their store. So look out for displays. He has fine house and porch dresses, splendid material for home dressmaking, great display of high cut and low dress shoes, first class and good wearing hosiery, beautiful waists, underwear and many articles too numerous to mention. We advise all to go and look for themselves and then purchase.

Captain R. H. Decker spent Tuesday in Pleasant Valley.

Mrs. Daniel Kurtz and son, Gordon, were shoppers in Poughkeepsie on Tuesday. Gordon has just recovered from an attack of measles.

Earl Dimsey has had a furrough of a few days and spent it here at the home of Miss Lulu Constable, his bride-to-be.

Rev. George Scofield has been out of town. He spent some time in New Jersey and soon takes a trip to the South.

quite a great deal of late. Mrs. John L. Pratt entertained the Sisterhood, called P. E. O. They had a jolly time so one of the sisters informed us.

The Liberty Coach arrived here Monday noon, but the Ball was left behind. The four horses, owned by Mrs. Vanderbilt, attached to the coach showed by every movement they belonged to an aristocratic family, for their carriage showed aristocracy and how plainly it can be detected in dumb beasts as well as people; these horses have had the best of care, well groomed by the best attendants and have had the honor of going about the country on a world-wide mission. We wished they might be named: Star, Stripe, Uncle Sam and Liberty. There were good addresses and a good amount of money raised. From here they went to Milton. Mr. and Mrs. J. W. Peeter accompanied them. From there the coach proceeded to Marlborough and at both places they obtained goodly sums for the noble cause of "Winning the War."

It is now reported that the trolley fare will be raised on May 4th. Now it will cost from here to New Paltz a raise of 5 cents; it seems it cost enough before this and the people we find are finding quite some fault and you cannot blame them.

Friday, May 3rd, "The Man Without a Country," will be given in a movie house for the Red Cross benefit. We hear there will be a machine at 3 p. m. and evening, 7:15 and 9. Friday evening in the M. E. Church lecture room there will be a reception to the new pastor and wife, Rev. and Mrs. F. A. Coon. Let every one come out and show their loyalty and may this meeting bring all closer together in the promotion of peace and good will—let us realize that by these social affairs we will be benefited by our united interest.

Mrs. Winans of Poughkeepsie, was a guest of her mother, Mrs. George Main, Sr., of Washington avenue.

Mrs. Myron Terpenning spent several days in Poughkeepsie last week to be near her daughter, Mrs. Jesse Miller, who is in St. Francis Hospital in that place for an operation for appendicitis. She is reported as coming on nicely.

Mrs. Coddington and daughter, Helen, left here Monday on the afternoon train for Goshen where she will remain for a few days before going on to Walton, N. Y. Helen has recovered nicely from the measles. Every one here wishes them the best of luck in their new home. They had a host of friends who very greatly regretted their departure.

Wednesday evening the Daughters of America held their regular meeting with a fine representation of members. These people are all loyal to their order which means much. It certainly is delightful indeed to know that our friends here blend in a constant desire to be helpful to each other. Stand together and be actuated by pure motives. There was considerable business transacted and nomination of officers took place, and very soon the election of officers

pressed to Harry and his wife, but they are very faithful in caring for her.

Oscar Arwiler, who has been ill months does not seem to get along very rapidly. Our hearts go out in sympathy to these people who were so active a few years ago and now are deprived of all pleasure, it seems very hard.

Henry Hovel, of New York city, and wife of Mrs. J. C. Decker, are expected here for a visit with her sister the latter part of the week. The Hovels have many friends here who will gladly welcome them back for the summer months at their summer home on Maple avenue.

Mr. and Mrs. James Swift are the proud parents of an heir and their friends are extending best wishes for the welfare of all.

On Friday of this week the Ladies' Auxiliary Club will hold its regular business and social meeting at the home of Mr. and Mrs. Uriah Decker, where she with her daughters, Mrs. Lloyd Price and Miss Elizabeth Decker, will preside as hostesses. These people have a very commodious and beautiful home and it is hoped there will be a very large delegation of members present. Although house cleaning is the prevailing and perplexing work for the present, still break out and swell the crowd on auxiliary day. You certainly will be amply paid. A detailed report will be given to the reporter for next week's issue of The Freeman.

Depression in Germany.

By Telegram to The Freeman.
London, May 2.—There is great depression in Germany over the failure to achieve a success on the western front, the heavy losses and the scarcity of food, said a news agency dispatch received here today. The information was secured from twenty German prisoners of war who escaped from Germany. They said that all available males under 50, including the invalided, were being gathered up for the army. Soldiers were not permitted to communicate with their relatives.

Practical Joker Golden Popular.
The adept at the practical joke, being himself nervously inoperative and afflicted with a nervous idea of humor, is almost invariably the person who cannot, as we say, "take his own medicine," turning sulky and sullen under reprisals in kind, and behaving with the people who are not desirable as friends. Even acquaintance is often a trial. —Detroit Free Press.

FIXING BLAME FOR STEAMER DISASTER

By Telegram to The Freeman.
New York, May 2.—With a rigid investigation already under way into the sinking of the Savannah line steamer City of Athens by a French cruiser off the Delaware Capes early Wednesday morning, the death toll today remained sixty-seven, among them two women and a child.

Officials of the Savannah line are conducting an inquiry into a report that the life saving apparatus on the City of Athens was defective. The cause of one of the lifeboats capsizing and sending the occupants into cold water is said to have been a rope breaking. Altogether there were 155 souls aboard the City of Athens. Sixty-nine were passengers. The crew of the steamer numbered sixty-six. Among the passengers were women and children and twenty-four marine recruits with twenty French sailors enroute to southern naval training camp. Twelve of the marines have been accounted for and seventeen French sailors are known to have been drowned.

The collision occurred while both ships were proceeding at a fair rate of speed. A fog which was so thick that not a glimmer of either ship's lights could be seen by the other, was directly responsible for the crash.

Numerous cases of heroism were reported here today after the survivors had been landed. F. J. Dineen and Z. W. Vollmer, wireless operators, stuck in their posts on the Athens until the ship went down. They refused to obey commands to leave the ship. Vollmer was picked up but Dineen was lost.

The marines, though newly enlisted recruits, up held the traditions of the service. Practically all of them assisted in the rescue of some of the passengers. Several gave their lives in an effort to save others.

DRASTIC ACTION TO CLEAN UP MEASLES

Health Board Established Quarantine for Three Weeks for Children in Houses Where Cases Occur, or One Week for Individual Cases.

There have been one hundred and five cases, of which thirty have been reported in the last three days. Besides the members of the health board, the meeting was attended by Dr. Laidlaw, state sanitary supervisor of this district; Superintendent of Schools M. J. Michael; Dr. Henry Van Hovenberg, school physician, and Miss Deiche, school nurse.

The board decided that drastic action had to be taken as parents were not obeying the quarantine. The board determined that all children in houses in which there is a case of measles be quarantined for three weeks, or that each child reported with the measles be quarantined for one week after being reported to the board. The distinction is made because the child can communicate the disease for some time before the eruptions appear, but there is little chance of it being communicated afterward except for two or three days.

The board authorized the health officer and sanitary committee to take the necessary steps to open up the contagion hospital and to remove to the hospital all cases where the quarantine was being violated. This action was determined to be necessary because of the false idea that the disease is not serious. There were 82 deaths from measles in New York state last year and only 261 deaths from scarlet fever, besides many deaths from other diseases or complications which resulted from the measles. The disease is listed as a serious one, and a mild case may give rise to a serious one.

The board wants parents to eliminate the idea that their children should have the measles to the extent that parents are not careful in having their spread minimized, and that it was necessary to protect other children by enforcing the quarantine by removal of cases to the contagion hospital if necessary.

WHY SUGAR MUST BE SAVED.

Every Spoonful Helps to Make Up the Shortage.

By Telegram to The Freeman.
Washington, D. C., May 2.—If any man has failed to see the reason why he should cut his plentiful apportionment of two spoonfuls of sugar to the one of war time, he can find it in a recent publication of the United States Department of Agriculture explaining the world-wide shortage—especially the shortage among the Allies—in the supply of sweets.

Not only has the supply of sugar in some parts of the United States been short, but there has been an actual shortage of more than 2,000,000 tons annually in the world since the war began, and the shortage is likely to continue, the publication says, primarily because of the destruction of a large number of sugar mills and the devastation of a considerable area of sugar-producing lands in Europe.

Prior to the war practically all the sugar-producing countries, with the exception of the United Kingdom and Italy, exported sugar. The total amount being shipped was 3,000,000 tons. War, however, has changed the sugar-production map and at the same time has shifted the channels of trade. In 1918 it is estimated that the Allies must import a minimum of 1,200,000 tons of sugar.

Formerly the United Kingdom and France depended to a considerable extent upon Germany, Austria-Hungary, and Russia for sugar. These sources were shut off by the war. The United Kingdom, alone, thus lost the source of more than half of her normal supply of sugar and has turned to new as well as other old sources for her supply. The changes thus brought about have been largely a diversion of the product of Mauritius to the United Kingdom instead of to India, and an expansion of the imports of unrefined sugar from Cuba, the Philippines and Peru. For refined sugar she drew upon the United States and Java. However, the Allies can not turn to such exporting countries as Java and Mauritius without being forced to go a much longer distance and over more perilous route than across Atlantic. If the Allies are compelled to go to these countries it will require an extra amount of shipping which is needed for transportation of American soldiers and supplies to France and England.

Russia's reports practically ceased in 1914, and she is now reported as somewhat short of sugar. Italy's crop decreased last year and her imports have increased largely since the war began. Italy's normal consumption, however, is small and her deficit is not serious.

BAKER ASKS FOR
UNLIMITED MEN

By Telegraph to The Freeman.

Washington, May 2.—Secretary of War Baker, appearing before the house military affairs committee this afternoon, asked blanket authority to "raise any number of men that the facilities for training and transportation will permit."

Upon emerging from the committee room, Secretary Baker dictated the following statement:

"The war department's program was presented to the committee this morning. It involves expediting the transportation of men and increasing the army as rapidly as our ability to equip and transport can be foreseen."

"The secretary of war declined to discuss numbers for the double reason that any number implies a limit, and the only possible limit is our ability to equip and train and transport, which is constantly on the increase."

"The details of estimates for the increase."

FINANCIAL AND
COMMERCIAL

By Telegraph to The Freeman.

New York, May 2.—The leading industrial were in vigorous demand at the opening of the stock market today, with most interest attached to the trading in Steel Common. There was another wide opening in this stock, initial sales being at 97 1/2 to 97 3/4, a gain of 1/4, and during the first fifteen minutes dealings between these prices continued on a large scale, with one sale at 96 1/2. Republic Iron and Steel was the strongest of the minor steel industrial, continued accumulation putting its price up 1 1/2 to 88 1/2. Fractional gains were made in Baldwin, Crucible and Bethlehem B. Mexican Petroleum was active, advancing 1 1/2 to 35. Distillers Securities opened up 32 at 5 1/2, but yielded to 50 1/2, in the next round. International Paper, American Tel. and Tel., and Corn Products showed fractional losses in the early trading. American Can advanced 1/4 to 44 1/2. Marine Preferred opened up 1/4 at 86 1/2, which was followed by a reaction to 86 1/2. Liberty Bonds continued in good demand, the 4's selling at 96 1/2, while the 3 1/2's were traded in at 99.02.

Nearly all the speculative interest on the floor was concentrated in the steel industrial because of the favorable reports of the situation published in the trade journals. Steel Common held strong throughout the forenoon, ranging from 97 to 97 1/2, while Republic Iron and Steel was in good demand, moving up over two points to 84 1/2. Good gains were also made in Baldwin Locomotive, Crucible, Midvale and Lackawanna Steel. American Can was carried up 1 point to 44 1/2. Mexican Petroleum was active and strong, moving up 1 1/2 to 35 1/2. The railroad stocks were quiet.

The market continued strong. Canadian Pacific moved up nearly 3 points to 140 1/2 and St. Paul Preferred sold up to 71 1/2, a gain of 1 1/2, while the Common moved up 1 1/2 to 40 1/2. New Haven sold up to 39 1/2, then reacted to 37 1/2.

The market closed strong today; government bonds unchanged; railway and other bonds strong.

CO-OPERATE WITH THE PRESIDENT

He Has Bought Many Bonds and Will Buy Another on the Installment Plan—Four Minute Men to Speak in the Local Theaters.

Kingston's Four Minute Men will speak in the local theaters this evening and Friday evening in the interests of the Third Liberty Loan, and will tell how President Wilson has bought Liberty Bonds to his limit, and offers to buy another one on the installment plan.

This evening's schedule is as follows: Kingston Opera House—7:15 o'clock, Judge A. T. Clearwater; Hon. Howard Clapp; Orpheum Theater—7:15 o'clock, Judge John G. Van Ethen, 9. Attorney Harry H. Flemming; Auditorium Theater—7:15 o'clock, Judge James Jenkins, 9. R. E. Loughlin; Reception, Daughters of Isabella, K of C. Auditorium—9 o'clock, John E. Mahan.

Friday Evening.

The schedule for Friday evening is as follows: Kingston Opera House—7:15 o'clock, Senator Charles W. Walton; 9. Attorney Alfred D. Van Buren; Orpheum Theater—7:15 o'clock, Judge Amos Van Ethen; 9. Attorney John M. Caslin; Auditorium Theater—7:15, Thomas J. Comerford; 9. County Attorney John W. Eckert; Junior Dance, Kingston High School—9 o'clock, Attorney D. G. Atkins.

The following telegram was received by Mr. Comerford:

Thus J. Comerford, Chairman Four Minute Men, Kingston.

Not only speakers to make this proposition to all audiences on Thursday and Friday, President Wilson realizing the very vital necessity of increasing the number and size of individual subscriptions to the Third Liberty Loan, says that while he has already bought to his limit, he offers to buy one more fifty dollar bond on the installment plan at the rate of seven percent a day and asks how many men and women in all American audiences will match him for new or additional subscriptions. This offer is to be made simultaneously just as if he were present. Have all speakers pound this proposition hard at every meeting on Thursday and Friday and to secure every possible subscription.

(Signed) BLAIR.

Edward Coykendall, chairman of the local Liberty Loan Committee, stated when he heard about the telegram, that Kingston ought to do more than go "over the top."

Mr. Coykendall said that we ought to bend every effort to secure every possible subscription. We have a duty to perform and we must do our share here in Kingston.

Question for Nature Lovers.

Why does the oak, sturdiest of trees, bear but a small acorn, while the tender mountain vine bears such a weighty fruit? That the latter runs along the ground and the fruit is thereby assured of support is not true, for the vine will climb whenever and wherever opportunity is given and will retain its hanging fruits to maturity, even though the latter weigh 100 pounds each.

"There's a Reason"

HE HELPED POLICE LOCATE HIS WIFE

Had on Alleged Disorderly House in Poughkeepsie. Followed—Manno—Then Furnished Her Bail and Withdrew Larceny Charge He Had Made.

The matrimonial adventures of Mr. and Mrs. Frank Manno of Chambers street would furnish a good scenario for the movies, and the latest reel was cast in Poughkeepsie when Manno found his wife in an alleged disorderly house.

In order that the reel may be properly placed before the audience it is necessary to go back a few weeks. At that time Mrs. Manno was cast in the leading role. She was formerly Miss Jeanne Eldridge of Edenville.

The time was shortly after supper and the first scene shows Officer James J. Connelly patrolling his beat downtown. At this interesting stage of the scene Mr. Manno comes running up and informed Officer Connelly that his wife had swallowed poison and he had left her lying on the floor of their home.

Officer Connelly and Manno set off in a hurry for the Manno domicile. When they arrive they find Mrs. Manno on the front porch talking with the colored woman who resides upstairs.

When she was questioned by Officer Connelly she informed him that the reason she had swallowed the poison was due to the fact that her husband accused her of drinking and that made her tired of life.

Still later the next scene shows police headquarters and the appearance of Mr. Manno, who called to get out a warrant for the arrest of his wife. He claimed she had taken his blue serge suit and a watch and then left.

The scene then shifts to Poughkeepsie when Manno appeared at police headquarters there and stated he had located his wife at No. 29 Main street, that city.

Chief McCabe and Detective Shelly decided to raid the place. This was Tuesday night, and as a result they placed Frances Prate, 24 years old, under arrest as a disorderly person in that she conducted a house frequented by disorderly persons, and Mrs. Manno, who was found in the house, was held as a material witness.

This led to Mrs. Manno being required to furnish cash bail for her appearance in court when the case came up for a hearing next week. She did not have the required cash and rather than have his wife languish in jail, her husband put up \$170 cash bail for his wife's appearance and then both left for Kingston.

The last scene shows Mr. Manno at police headquarters this morning where he informed Sergeant Hanley where he wanted to withdraw the charge he had made against his wife.

According to the Poughkeepsie Eagle-News Mrs. Manno at the station house said she had gone to Poughkeepsie on Tuesday night and stayed at the home of her aunt. A few days later she hired out in the restaurant conducted by the Prate woman. When questioned further she told of many disorderly acts which were brought to her attention by the Prate woman.

WALKER VALLEY.

Walker Valley, May 2.—On Monday evening, the Liberty Loan Committee of Pine Bush, held a rally in the M. E. Church. With the exception of last Decoration Day it was about as large an assemblage as ever congregated in the church. Opening prayer by the Rev. James Dickerson of Pine Bush. L. J. Davis of Pine Bush presided. Selections by John's orchestra of Walden. Mr. Murray of Ellenville gave an eloquent address, showing the necessity of buying a bond. Solo, "When the Boys Come Home," by Mrs. Charles Bennett, which was highly applauded. For an encore she sang "Keep the Home Fires Burning." Mrs. Bennett has a beautiful trained voice. M. Hazleton, president of Federal Bank, N. Y., was then introduced, telling the need of Liberty Loan and conservation. The Boy Scouts marched on platform. After a speech all joined in singing "The Star Spangled Banner." Our beloved pastor, the Rev. F. F. Robinson, gave a talk on what he had seen while in France, being a representative of the Y. M. C. A. in France for a while, after which it was announced the representative of the Red Cross would take up a collection, which was generously responded to, \$17.71 being collected. Then our fellow townsman, Montgomery Schuyler, gave an address with questions, while no one could seem to answer as no one could say they had sacrificed one thing to help win the war. We are sure the chairman had worked hard to have such a successful meeting, and it is greatly appreciated by Walker Valley. It would be hard to say which speaker was best as all were eloquent even to our young Boy Scout, and the selections by the orchestra were many and beautiful.

Mrs. C. F. Koller and children, William and Edy, returned home Sunday, after spending several days in Brooklyn with relatives. Mr. and Mrs. Harry Weaver of Leptandale spent Sunday in this place visiting their aunt, Jennie, and grandmother, Mrs. Nancy Evans, also Mr. and Mrs. David Evans. Mr. Theodore Perkins of New York spent the past week with his mother, Mrs. Flora Perkins.

Word has been received that William Backridge has arrived safely in France.

Mrs. Henry Polhamus and daughter, Mrs. Eric Brown, returned to the former home here Sunday. Walker Valley will go over the top with the Liberty Loan.

Mr. and Mrs. D. C. Jansen spent Saturday with Mr. and Mrs. Frank McCord at Pine Bush.

FIRES HOME THEN SHOOT HIMSELF

Francisco DeCicco, 74 Years Old, of East Kingston. Mentally Unbalanced, Suicided Wednesday After Setting His House on Fire.

Francisco DeCicco, 74 years old, who resided alone in a two room house at East Kingston, set fire to his home Wednesday afternoon and then going out behind an ice house about thirty feet away from his home he shot himself through the heart with a .32 calibre revolver. Death was instantaneous.

The aged man has been mentally unbalanced for some time. His wife died about a year and a half ago, and last fall his two grandchildren, Rose and Anna DeCicco, were killed when the automobile they were riding in was struck by a West Shore train on the Flatbush avenue crossing. The deaths made him despondent.

That afternoon smoke was seen coming from the little two-room house where the aged man resided alone and the front door was forced open by neighbors. While some thought the fire others started a search for Mr. DeCicco and found him dead on the ground behind the ice house. The fire was extinguished before it had done much damage. A few articles in one room were burned and the other room was damaged by smoke.

Corner E. A. Kelly was notified and that evening the body of the dead man was removed to the undertaking parlors of N. D. J. Murphy. The funeral arrangements will be announced later.

Mr. DeCicco was a member of St. Colman's Church in East Kingston, and a member of the St. Lawrence Society. He is survived by four sons, John James, Caroline and Michael; one daughter, Mrs. James Nardi, all of East Kingston, and one sister, Mrs. Carmina Pusliffe of Chicago.

The dead man was a former worker on the brickyards, but retired about seventeen years ago.

LATTINGTOWN.

Lattintown, May 2.—The past snow storm and recent heavy rains have hindered farm work considerably but the pleasant days now will speed up the workers.

The hour early system set by the government is generally observed in this neighborhood.

Potatoes have sold as low as 80 cents per bushel in this vicinity. Through the winter they sold for \$1.50 to \$1.75.

Hay of good quality brings from \$25.00 to \$25.00 per ton.

L. W. Grant has rented for the season the two fields, which formerly belonged to the Ruffer farm and will plant it in corn, about 20 acres.

James Weed has purchased a new horse.

Martin Kody and family, who have lived on a fruit farm for the last 20 years have moved near Milton.

Not long ago the little son of Martin Kody was badly bitten by a dog belonging to P. O'Brien, living north of the place. Dr. Freston of Lattintown treated the wound.

Howard St. John, Eddie Clark, Wm. Kaley and B. McGowan of the Home Guard took part in the recent third Liberty Loan parade in Poughkeepsie.

Mrs. Milton Odell's sister and brother of Highland, visited her last Saturday and Sunday.

The second daughter was born not long ago to Mr. and Mrs. L. W. Craft. Automobiles are getting more plentiful on the main thoroughfare here.

T. B. Odell is ill.

In district No. 7 here 53 pupils have subscribed to the Junior Red Cross. The sum netting from the pupils and outside sources is over \$25.00.

This school now belongs to the Kingston branch of the Ulster County Red Cross Auxiliary.

Mrs. Robert Tooker has moved to Long Island where her husband acts as policeman.

Wilbur Mackey of the munitions works, New Jersey, has made a two weeks' visit to his parents, Mr. and Mrs. O. H. Mackey and returned.

It is stated that on Monday when the "Liberty Road Coach" passed through Highland, Milton and Marlborough, that the speakers obtained \$6,000 in Highland; \$8,000 in Milton and \$25,500 in Marlborough.

Hon. C. M. Woolsey spoke for the government in Milton and Prof. Taylor of the high school in Marlborough. Two orators also spoke from the coach for the boys and government over there.

QUARRYVILLE.

Quarryville, May 2.—Mrs. Hornum is entertaining company from the city.

John Hennessy has had a neat sign put on his house, informing the traveling public that his house is open to transients.

Our veteran, John Schaff, was in the parade at Saugerties Tuesday morning, in honor of the boys who went to camp.

The Red Cross entertainment given by our school last Friday night was largely attended. The exercises were A-No. 1, and much credit is due to Mrs. Finner, our teacher, in taking such an interest in the school.

At the reorganization of the M. E. Sunday school last Thursday evening, the following officers were elected: Supt., Arthur Macer; asst. supt., Ernest Van Steenburgh; secretary, Mrs. William Brown; treasurer, Mrs. John Hallenbeck; librarian, Miss Emma Post; missionary supt., Mrs. Arthur Macer; organist, Mrs. William Humphrey; assistant organist, Mrs. John Craft.

Might Have Changed History. Joseph's correct interpretation of Pharaoh's dream of the fat and the lean kine, and the full and withered ears, saved a mighty nation from famine. Had Caesar not bowed to Caligula's dream and not gone out the eventful day, Rome might have still been what she was. If Pilate had paid attention to his wife's dream, the Scriptures would give us a different story about the Savior.

MORE CORN COMBINATIONS.

Corn flour makes very palatable griddle cakes using the usual proportions with an egg or two as needed.

Steamed Barley and Cornmeal Pudding.—Take one cupful each of molasses, sour milk, raisins and barley. Three-fourths of a cupful of cornmeal, one-fourth of a teaspoonful of salt, one egg, one teaspoonful of soda dissolved in a spoonful of water. Beat the egg and add the molasses, milk, and soda. Sift corn meal and barley together and combine with the first mixture. Add the raisins chopped and pour into well greased baking powder tins. Steam two hours. Serve with any good sauce.

Popcorn Balls.—Use perfect kernels removing all the hard ones. Prepare a syrup by boiling two cupfuls of corn syrup and a tablespoonful of sweet fat until it threads. Pour slowly over the corn stirring to get it well mixed. Chill the hands and form the balls quickly before the syrup gets too hard.

Chocolate Pudding.—Mix four tablespoonfuls of cornstarch with a half cupful of sugar and a half teaspoonful of salt. Combine with a little cold milk, in which a square of grated chocolate has been added, add a pint of milk, and cook until thick, then add a half cupful each of raisins and nuts with a teaspoonful of vanilla. Mold and chill and serve with cream or top milk.

Wisconsin Scramble.—Take one cupful of headcheese, pork scraps left from trying out lard or one cupful of headcheese, two teaspoonfuls of salt, a teaspoonful of powdered sage. Cook the meat two hours, then stir in the meat and seasonings, then turn into a mold wet with cold water. Slice when cold, and fry.

Corn Flour Cake.—Scald one and one-half cupfuls of milk, and two cupfuls of corn flour, slowly, stirring constantly. Cream a third of a cupful of fat with three-fourths of a cupful of sugar, add two well beaten eggs, then the corn flour and milk mixture. Beat well, add three teaspoonfuls of baking powder, beat again and put into layer tins. Use fig filling.

Alum for Cleaning Brass.

Try this for cleaning brass faucets. The Popular Science Monthly says it will not injure either metal or hands. Put one and a half ounces of alum in one pint of boiling water and rub the solution on the brass surface with a cloth. The stains, as well as the tarnish, are quickly removed. The solution is inexpensive and easily made.
